# Diversity Policy

## Diversity Policy

Atlas Arteria (**ALX**) respects and values diversity in its boards and workforce at all levels.

ALX's commitment to diversity is part of ensuring it remains contemporary, relevant and sustainable.

### Definition of Diversity

ALX defines diversity as a broad range of experiences, skills and views. ALX believes that the workplace is enhanced through a diverse workforce reflecting differences arising through characteristics such as gender, age, ethnicity, cultural background, physical ability and sexual orientation.

### ALX'S Commitment to Diversity

The benefits of diversity for ALX include greater access to talented individuals, enhanced creativity, innovation and risk management and meeting the expectations of shareholders, regulators and the wider community.

ALX is committed to:

- Attracting a broad range of candidates.
- Employing and offering career advancement to people based on merit.
- Creating a workplace culture that values individuality.
- Encouraging flexible thinking as well as flexible work practices.
- Supporting people through relevant structures and work environment so they can reach their full potential in the workplace.
- Remunerating people in a fair and equitable way.
- The appointment of women to the ALX Boards and increasing their numbers over time as part of the Board renewal process.
- Ensuring women are well represented in senior management roles within ALX and supporting an increase in the number of women in senior management roles at ALX's operating businesses.

### Implementation

Macquarie Group (**Macquarie**) makes management staff available to ALX under formal resourcing arrangements. Since May 2018, ALX also begun employing its own staff.

The board members of Atlas Arteria Limited (**ATLAX**) and Atlas Arteria International Limited (**ATLIX**) are elected by the shareholders and each board has established a Nomination and

Governance Committee to formalise the board nomination and review process.

Macquarie is committed to diversity in the workplace recognising that it is fundamental to organisational success. Macquarie has diversity policies based on similar principles to the ALX policy.

ALX will seek to implement its diversity policy at the ALX board and management levels including through consultation with Macquarie.

ALX appointed board representatives will also seek to promote diversity at ALX's controlled businesses and also in its non-controlled businesses to the extent that they are able under the co-ownership arrangements. In particular, where ALX does not control decision-making at its operating businesses, ALX appointed board representatives will in all cases support the implementation of appropriate diversity policies and the employment and representation of women generally across all levels of seniority.

### Accountability and Governance

ALX's Diversity Policy will be reviewed periodically by the ALX boards and is under the stewardship of the Nomination and Governance Committees established by each of the ATLAX and ATLIX boards.

### Measurement

An annual review of diversity will be overseen by the ALX Nomination and Governance Committees. The review will monitor ALX's progress in influencing diversity at the board level, in its management team and in the workforces of its businesses.

ALX's diversity reporting will meet all of the legislative and regulatory requirements of the jurisdictions in which ALX does business, including the requirements of the ASX Corporate Governance Principles and Recommendations.
