

Commodity futures trading commission rule 1.55(k) FCM-specific disclosure document

The Commodity Futures Trading Commission (“Commission or CFTC”) requires each futures commission merchant (“FCM”), including Macquarie Futures USA LLC (“MFUSA”), to provide the following information to a customer prior to the time the customer first enters into an account agreement with the FCM or deposits money or securities (funds) with the FCM. Except as otherwise noted below, the information set out is as of March 6, 2019 MFUSA will update this information annually and as necessary to take account of any material change to its business operations, financial condition or other factors that MFUSA believes may be material to a customer’s decision to do business with MFUSA. Nonetheless, MFUSA’s business activities and financial data are not static and will change in non-material ways frequently throughout any 12-month period.

MFUSA is an affiliate of Macquarie Group Limited (“MGL”), and along with its worldwide affiliates referred to herein as “Macquarie”). Information that may be material with respect to MFUSA for purposes of the Commission’s disclosure requirements may not be material to MGL for purposes of applicable securities laws.

1. Firm and its Principals

Macquarie Futures USA LLC

125 West 55th Street

New York, NY 10019

Telephone: 212-231-2479

Fax: 212-231-2177

Email address: richard.meade@macquarie.com

Web address: <http://www.macquarie.com/mgl/com/futures>

MFUSA’s Designated Self-Regulatory Organization (“DSRO”) is the Chicago Board of Trade of the Chicago Mercantile Exchange (“CME”) Group.

<http://www.cmegroup.com>

1.1 MFUSA Principals

1.1.1 Executive Directors

Raymond Tubridy

1 North Wacker Drive, Chicago, Illinois USA

Raymond Tubridy is the North American Operations Manager of Macquarie Futures Americas and a member of the Board of Directors of MFUSA. Mr. Tubridy heads the Operations Teams for Macquarie Futures in New York, Chicago and Montreal and manages approximately 30 employees. Mr. Tubridy has over 30 years of financial services experience. He joined Macquarie from State Street, where he was instrumental in establishing their Futures Brokerage business, beginning in 2010. Prior to State Street, Mr. Tubridy managed global futures operations at Merrill Lynch, where he began his career in 1983.

Francoise Duboc

125 West 55th Street, New York, New York 10019 USA

Francoise Duboc is currently an Executive Director with Macquarie responsible for CFM's Structured Commodity Finance business ("SCF"). Ms. Duboc is also a member of the Board of Directors of MFUSA. Ms. Duboc has 28 years of commodity and trade finance experience including working for Macquarie, Brown Brothers Harriman and Credit Agricole. Ms. Duboc launched the SCF business within Macquarie including the development of the Macquarie Collateral Management / Letter of Credit / Operations framework for the business.

Glenn Edelson

125 West 55th Street, New York, New York 10019 USA

Glenn Edelson is currently a Division Director with Macquarie and Head of the Foreign Exchange ("FX") Sales and Trading Division of CFM. Mr. Edelson is also a member of the Board of Directors of MFUSA. Mr. Edelson has 20 years of experience in Foreign Exchange with a focus on emerging markets and is responsible for supervising the FX business in the US.

Andrew Stewart

50 Martin Place, Sydney NSW 2000 AUSTRALIA

Andrew Stewart is an Executive Director and Global Head of Macquarie Futures Division and is responsible for Macquarie's global futures execution and clearing business, managing a team of over 150 staff in 9 locations (Sydney, Melbourne, Brisbane, Singapore, Hong Kong, London, Montreal, New York and Chicago). Mr. Stewart is also a member of the Board of Directors of MFUSA. Mr. Stewart joined Macquarie in 1997 and has held a variety of roles within CFM since that time including roles in Risk Advisory Services (RAS), Energy Markets and Business Development where he provided senior CFM management with strategic advice and support for new initiatives and significant transactions. Prior to Macquarie, Mr. Stewart held a range of risk management and business development roles at Rabobank International, Australian Industry Development Corporation (AIDC) and Sydney Futures Exchange Limited. Andrew holds a Bachelor of Agricultural Economics from the University of Sydney.

Joshua Goldfarb

125 West 55th Street, New York, New York 10019 USA

Joshua Goldfarb is currently a Division Director with Macquarie and Head of US Execution for the Futures Division of CFM. Mr. Goldfarb is also a member of the Board of Directors of MFUSA. Mr. Goldfarb joined Macquarie in 2006 and he currently manages 20 employees across the New York and Chicago offices as well as a team on the floor of the New York Board of Trade. Mr. Goldfarb has over 20 years of experience in the Commodity and Equity markets and has overall responsibility for futures and options execution in the U.S.

1.1.2 Officers

Mark Basile

1 North Wacker Drive, Suite 2900 Chicago, IL 60606 USA

Mark Basile is currently an Associate Director with Macquarie as CFM Compliance and the Chief Compliance Officer of MFUSA. Mark's primary responsibilities include managing a team of two Compliance professionals that provide Compliance services and regulatory oversight for CFM's futures activities in the Americas. Additionally, he and his staff handle the ongoing, day-to-day Compliance responsibilities for Macquarie Futures USA LLC, a registered Futures Commission Merchant and clearing member of all four CME Group exchanges, ICE Futures US and ICE Futures Europe. Prior to joining Macquarie, Mr. Basile was employed with the Chicago Board of Trade's Office of Investigations and Audits / Regulatory Audits Division for seven years where he focused on annual examinations of member firms. Mr. Basile was also employed with Fortis Clearing Americas for four years as a Futures Compliance Officer.

Sue Sekar

125 West 55th Street, New York, New York 10019 USA

Sue is the CFO of MFUSA and is an Associate Director within Macquarie's Financial Management Group, which is responsible for delivering financial, tax, and treasury services to Macquarie Group and its subsidiaries. Sue has over 15 years of experience in financial services and is currently the Regional Controller for Macquarie's Americas region. Sue has oversight over the regulatory reporting function for Macquarie's regulated entities in the region (including MFUSA and Macquarie Capital (USA), the group's US broker-dealer) and also the financial control, legal entity control, business performance reporting and tax reporting functions. Prior to joining Macquarie's New York office in 2004, Sue spent 6 years in various finance roles in Macquarie's Sydney and London offices.

1.2 Firm's Business

MFUSA is registered with the CFTC as a FCM providing futures execution and clearing services covering futures exchanges globally.

MFUSA provides:

- Brokerage / execution services on all major futures exchanges electronically, via phone or through direct Pit access;
- Dedicated Client Relationship Managers who assist clients with a range of activities from system integration to daily management of trade processing;
- Execution and clearing services on a global basis, offering customized execution and clearing rates;
- Specialized expertise in energy, freight, grains and soft commodities;
- Customized hedge management solutions and trading strategies;
- Standardized, consolidated and user-friendly statements on a daily and monthly basis;
- Real-time access to account information and trade management; and
- Access to Macquarie Research and market commentary.

MFUSA is also an approved Swaps Firm introducing over-the-counter derivatives (swaps) transactions to its affiliate, Macquarie Bank Limited ("MBL").

Activity/Product Line	Percentage of Assets	Percentage of Capital
Futures Execution and Clearing	100%	100%
OTC Swaps Introduction to Affiliate	0%	0%

2. FCM Customer Business

MFUSA has a diverse range of customers consisting primarily of commercial hedgers including institutions and corporations, asset managers, producers, Commodity Trading Advisors and investment banks. In deciding whether to accept a customer for clearing, MFUSA considers the potential customer's creditworthiness, trading objectives, experience with futures trading, and classification as institutional. Markets traded include financial, agriculture, energy, and soft commodities.

2.1 Permitted Depositories and Counterparties

Note below MFUSA's policies and procedures concerning the choice of bank depositories, custodians and counterparties to permitted transactions under § 1.25.¹

MFUSA captures elements that track, document, and authorize its ability to hold customer segregated funds in foreign currencies in depositories located both in, or outside of, the US. The situs of each of the following shall be located in the US: each FCM Physical Location or DCO Physical Location; each account that a FCM maintains for each Cleared Swaps Customer; and each Cleared Swaps Customer account on the books and records of a DCO with respect to the Cleared Swaps Customers of MFUSA.

On a daily basis, MFUSA has segregated funds, including Cleared Swaps Customer Collateral, in various currencies deposited with various depositories. In order for these funds to qualify as acceptable segregated obligations, the conditions set forth in MFUSA's policies and procedures must be met.

Denominations of Obligations

MFUSA's segregated obligations are in USD and foreign currencies that have been deposited by customers. All USD obligations are permissible with no conditions. However, foreign currency obligations are permissible if they have been deposited by the customer, converted at the request of the customer or represent accrued P&L of the customer. MFUSA's obligation to Cleared Swaps Customer Collateral may be denominated in a currency in which funds have accrued to the Cleared Swaps Customer as a result of a Cleared Swap carried through MFUSA.

Customer funds or Cleared Swaps Customer Collateral deposited in a foreign currency are maintained in that currency, except at the customer's direct request. For such requests MFUSA will send instructions to MBL to execute an FX conversion. The affiliate will send back a confirmation of such conversion. MFUSA journals the currency conversion to the customer's futures account to reflect the conversion requested, which is then reviewed by a MFUSA manager against the confirmation received from the affiliate and the customer conversion request. If a product settles in a foreign currency, the customer statement will reflect that P&L is accrued in that foreign currency.

Locations and Qualifications of Depositories

MFUSA holds funds both inside and outside of the US only in qualified depositories in permitted locations.

Locations of Depositories

Inside of the US

- BMO Harris
- Archer Daniels Midland ("ADM")
- CME Clearing
- ICE US Clearing
- New York Community Bank
- Nodal Clear

Outside of the US – in a Money Center Country, the (United Kingdom)

- ICE Clearing (UK)
- JP Morgan Chase (London Branch) (UK)

Qualified Depositories

Inside of the US

- DCOs
 - CME Clearing
 - ICE Clear US
 - Nodal Clear
- Banks
 - BMO Harris

¹ The term "counterparties" is limited to § 1.25 counterparties.

- New York Community Bank
- FCMs
 - ADM

Outside of the US

- DCOs
 - ICE Clear Europe

A bank or trust company that has excess of \$1 Billion of regulatory capital

- JPMorgan Chase (London Branch). The \$1 Billion regulatory capital requirement is confirmed quarterly by Macquarie's Compliance Division per a review of the bank's 10-Q.

2.2 Material Risks

Overview: In order to ensure that it is in compliance with its regulatory capital requirements and that it has sufficient liquidity to meet its ongoing business obligations, MFUSA holds a significant portion of its assets in cash US Treasury securities guaranteed as to principal and interest, and Money Market Mutual Funds.

MFUSA is also permitted to invest in other short-term highly liquid instruments such as commercial paper and certificates of deposit, municipal securities and certain highly-rated corporate debt securities. Currently, MFUSA does not invest in these types of instruments.

The average weighted maturity of all investments held by MFUSA is less than six months, and the average weighted coupon is not applicable as MFUSA does not hold bonds.

- (i) FCM's creditworthiness, leverage, capital, liquidity, principal liabilities, balance sheet leverage and other lines of business is provided in the links below.

Note, MFUSA is not a publicly traded company, therefore it does not have a credit rating. However, MFUSA has a Risk Management Program for the monitoring and management of material risks to the firm, including credit risk of its customers. MFUSA does not engage in proprietary trading.

All exhibits are at the end of this document.

[EXHIBIT A - Balance Sheet Leverage](#)

[EXHIBIT B - Leverage](#)

[EXHIBIT C - Net Capital](#)

[EXHIBIT D - Liquidity](#)

[EXHIBIT E - Principal Liabilities](#)

- (ii) MFUSA does not invest customer funds in affiliated entities, however, as part of the Macquarie Group, MFUSA is dependent on the Macquarie Group for funding, operational support, infrastructure and other services (the "Services"). These Services may be disrupted under certain circumstances beyond MFUSA's control, which may in turn adversely impact MFUSA's business. Additionally, MFUSA maintains accounts for its affiliates and their customers, and as such could be exposed to risk of default by such affiliates and their customers if such default results in a loss greater than the amount of collateral posted in connection with such accounts.
- (iii) At this time, MFUSA has no significant liabilities, contingent or otherwise, and material commitments.

2.3 Material Complaints or Actions

For a list of any material administrative or enforcement complaints or actions filed against MFUSA where such complaints or actions have not concluded, and any enforcement complaints or actions filed against MFUSA during the last three years, see the link to the National Futures Association ("NFA") website: <http://www.nfa.futures.org/basicnet/Details.aspx?entityid=ioX0aGptjhM%3d&rn=Y>

2.4 Customer Funds Segregation

Customer Accounts. MFUSA may maintain up to three different types of accounts for customers, depending on the products a customer trades:

- (i) a “**Customer Segregated Account**” for customers that trade futures and options on futures listed on US futures exchanges;
- (ii) a “**30.7 Account**” for customers that trade futures and options on futures listed on foreign boards of trade; and
- (iii) a “**Cleared Swaps Customer Account**” for customers trading swaps that are cleared on a Derivatives Clearing Organization (“DCO”) registered with the Commission.

The requirement to maintain these separate accounts reflects the different risks posed by the different products. Cash, securities and other collateral (collectively, “**Customer Funds**”) required to be held in one type of account, e.g., the Customer Segregated Account, may not be commingled with funds required to be held in another type of account, e.g., the 30.7 Account, except as the Commission may permit by order. For example, the Commission has issued orders authorizing ICE Clear Europe Limited, which is registered with the Commission as a DCO, and MFUSA’s clearing members: (i) to hold in Cleared Swaps Customer Accounts Customer Funds used to margin both (a) Cleared Swaps and (b) foreign futures and foreign options traded on ICE Futures Europe, and to provide for portfolio margining of such Cleared Swaps and foreign futures and foreign options; and (ii) to hold in Customer Segregated Accounts Customer Funds used to margin both (c) futures and options on futures traded on ICE Futures US and (d) foreign futures and foreign options traded on ICE Futures Europe, and to provide for portfolio margining of such transactions.

Customer Segregated Account

Funds that customers deposit with MFUSA, or that are otherwise required to be held for the benefit of customers, to margin futures and options on futures contracts traded on futures exchanges located in the US, i.e., designated contract markets, are held in a Customer Segregated Account in accordance with section 4d(a)(2) of the Commodity Exchange Act and Commission Rule 1.20. Customer Segregated Funds held in the Customer Segregated Account may not be used to meet the obligations of MFUSA or any other person, including another customer.

All Customer Segregated Funds may be commingled in a single account, i.e., a customer omnibus account, and held with: (i) a bank or trust company located in the US; (ii) a bank or trust company located outside of the US that has in excess of \$1 billion of regulatory capital; (iii) an FCM; or (iv) a DCO. Such commingled account must be properly titled to make clear that the funds belong to, and are being held for the benefit of, MFUSA’s customers. Unless a customer provides instructions to the contrary, MFUSA may hold Customer Segregated Funds only: (i) in the US; (ii) in a money center country;² or (iii) in the country of origin of the currency.

MFUSA must hold sufficient US dollars in the US to meet all US dollar obligations and sufficient funds in each other currency to meet obligations in such currency. Notwithstanding the foregoing, assets denominated in a currency may be held to meet obligations denominated in another currency (other than the US dollar) as follows: (i) US dollars may be held in the US or in money center countries to meet obligations denominated in any other currency; and (ii) funds in money center currencies³ may be held in the US or in money center countries to meet obligations denominated in currencies other than the US dollar.

30.7 Account

Funds that 30.7 Customers deposit with MFUSA, or that are otherwise required to be held for the benefit of customers, to margin futures and options on futures contracts traded on foreign boards of trade, i.e., 30.7 Customer Funds, and sometimes referred to as the foreign futures and foreign options secured amount, are held in a 30.7 Account in accordance with Commission Rule 30.7.

Funds required to be held in the 30.7 Account for or on behalf of 30.7 Customers may be commingled in an omnibus account and held with: (i) a bank or trust company located in the US; (ii) a bank or trust company located outside the US that has in excess of \$1 billion in regulatory capital; (iii) an FCM; (iv) a DCO; (v) the clearing organization of any foreign board of trade; (vi) a foreign broker; or (vii) such clearing organization’s or foreign broker’s designated depositories. Such commingled account must be properly titled to make clear that the funds belong to, and are being held for the benefit of, MFUSA’s 30.7 Customers. As explained below, Commission Rule 30.7 restricts the amount of such funds that may be held outside of the US.

² Money center countries means Canada, France, Italy, Germany, Japan, and the United Kingdom.

³ Money center currencies mean the currency of any money center country and the Euro.

Customers trading on foreign markets assume additional risks. Laws or regulations will vary depending on the foreign jurisdiction in which the transaction occurs, and funds held in a 30.7 Account outside of the US may not receive the same level of protection as Customer Segregated Funds. If the foreign broker carrying 30.7 Customer positions fails, the broker will be liquidated in accordance with the laws of the jurisdiction in which it is organized, which laws may differ significantly from the US Bankruptcy Code. Return of 30.7 Customer Funds to the US will be delayed and likely will be subject to the costs of administration of the failed foreign broker in accordance with the law of the applicable jurisdiction, as well as possible other intervening foreign brokers, if multiple foreign brokers were used to process the US customers' transactions on foreign markets.

If the foreign broker does not fail but MFUSA's 30.7 Customers fail, the foreign broker may want to ensure that appropriate authorization has been obtained before returning the 30.7 Customer Funds to MFUSA's trustee, which may delay their return. If both the foreign broker and MFUSA were to fail, potential differences between the trustee for MFUSA and the administrator for the foreign broker, each with independent fiduciary obligations under applicable law, may result in significant delays and additional administrative expenses. Use of other intervening foreign brokers by MFUSA to process the trades of 30.7 Customers on foreign markets may cause additional delays and administrative expenses.

To reduce the potential risk to 30.7 Customer Funds held outside of the US, Commission Rule 30.7 generally provides that MFUSA may not deposit or hold 30.7 Customer Funds in permitted accounts outside of the US except as necessary to meet margin requirements, including prefunding margin requirements, established by rule, regulation, or order of the relevant foreign boards of trade or foreign clearing organizations, or to meet margin calls issued by foreign brokers carrying the 30.7 Customers' positions. The rule further provides, however, that, in order to avoid the daily transfer of funds from accounts in the US, MFUSA may maintain in accounts located outside of the US an additional amount of up to 20 percent of the total amount of funds necessary to meet margin and prefunding margin requirements to avoid daily transfers of funds.

Cleared Swaps Customer Account

Funds deposited with MFUSA, or otherwise required to be held for the benefit of customers, to margin swaps cleared through a registered DCO, i.e., Cleared Swaps Customer Collateral, are held in a Cleared Swaps Customer Account in accordance with the provisions of section 4d(f) of the Act and Part 22 of the Commission's rules. Cleared Swaps Customer Accounts are sometimes referred to as LSOC Accounts. LSOC is an acronym for "legally separated, operationally commingled." Funds required to be held in a Cleared Swaps Customer Account may be commingled in an omnibus account and held with: (i) a bank or trust company located in the US; (ii) a bank or trust company located outside of the US that has in excess of \$1 billion of regulatory capital; (iii) a DCO; or (iv) another FCM. Such commingled account must be properly titled to make clear that the funds belong to, and are being held for the benefit of, MFUSA's Cleared Swaps Customers.

Investment of Customer Funds

Section 4d(a)(2) of the Act authorizes FCMs to invest Customer Segregated Funds in obligations of the United States, in general obligations of any State or of any political subdivision thereof, and in obligations fully guaranteed as to principal and interest by the US. Section 4d(f) authorizes MFUSA to invest Cleared Swaps Customer Collateral in similar instruments.

Commission Rule 1.25 authorizes MFUSA to invest Customer Segregated Funds, Cleared Swaps Customer Collateral and 30.7 Customer Funds in instruments of a similar nature. Commission rules further provide that MFUSA may retain all gains earned and is responsible for investment losses incurred in connection with the investment of Customer Funds. However, MFUSA and customer may agree that MFUSA will pay the customer interest on the funds deposited.

2.5 Permitted investments

Permitted investments include:

- (i) Obligations of the US and obligations fully guaranteed as to principal and interest by the US (U.S. government securities);
- (ii) General obligations of any State or of any political subdivision thereof (municipal securities);
- (iii) Obligations of any US government corporation or enterprise sponsored by the US government (US agency obligations);⁴

⁴ Obligations issued by the Federal National Mortgage Association or the Federal Home Loan Mortgage Association are permitted only while these entities operate under the conservatorship or receivership of the Federal Housing Finance Authority with capital support from the United States.

- (iv) Certificates of deposit issued by a bank (certificates of deposit) as defined in section 3(a)(6) of the Securities Exchange Act of 1934, or a domestic branch of a foreign bank that carries deposits insured by the Federal Deposit Insurance Corporation;
- (v) Commercial paper fully guaranteed as to principal and interest by the US under the Temporary Liquidity Guarantee Program as administered by the Federal Deposit Insurance Corporation (commercial paper);
- (vi) Corporate notes or bonds fully guaranteed as to principal and interest by the US under the Temporary Liquidity Guarantee Program as administered by the Federal Deposit Insurance Corporation (corporate notes or bonds); and
- (vii) Interests in money market mutual funds.

The duration of the securities in which MFUSA invests Customer Funds cannot exceed, on average, two years.

MFUSA may also engage in repurchase and reverse repurchase transactions with non-affiliated registered broker-dealers, provided such transactions are made on a delivery versus payment basis and involve only permitted investments. All funds or securities received in repurchase and reverse repurchase transactions with Customer Funds must be held in the appropriate Customer Account, *i.e.*, Customer Segregated Account, 30.7 Account or Cleared Swaps Customer Account. Further, in accordance with the provisions of Commission Rule 1.25, all such funds or collateral must be received in the appropriate Customer Account on a delivery versus payment basis in immediately available funds.⁵

Further, Commission rules require MFUSA to hold funds deposited to margin futures and options on futures contracts traded on US designated contract markets in Customer Segregated Accounts. Similarly, MFUSA must hold funds deposited to margin cleared swaps and futures and options on futures contracts traded on foreign boards of trade in a Cleared Swaps Customer Account or a 30.7 Account, respectively. In computing its Customer Funds requirements under relevant Commission rules, MFUSA may only consider those Customer Funds actually held in the applicable Customer Accounts and may not apply free funds in an account under identical ownership but of a different classification or account type (*e.g.*, securities, Customer Segregated, 30.7) to an account's margin deficiency. In order to be used for margin purposes, the funds must actually transfer to the identically-owned undermargined account.

For additional information on the protection of customer funds, please see the Futures Industry Association's "Protection of Customer Funds Frequently Asked Questions" located at http://www.futuresindustry.org/downloads/PCF_questions.pdf.

3. Filing a Complaint

A customer may file a complaint about MFUSA or one of its employees with the Commission by contacting the Division of Enforcement either electronically at <https://forms.cftc.gov/fp/complaintform.aspx> or by calling the Division of Enforcement toll-free at 866-FON-CFTC (866-366-2382).

A customer may file a complaint about MFUSA or one of its employees by contacting the NFA electronically at <http://www.nfa.futures.org/basicnet/Complaint.aspx> or by calling NFA directly at 800-621-3570.

A customer may file a complaint about MFUSA or one of its employees by contacting the Chicago Board of Trade electronically at: <http://www.cmegroup.com/market-regulation/file-complaint.html> or by calling the CME at 312.341.3286.

4. Relevant Financial Data

MFUSA's annual audited financial statements can be found in Section 5 below. Financial data as of the most recent month-end when the Disclosure Document is prepared.

- (i) [EXHIBIT F – MFUSA's total equity, regulatory capital, and net worth, all computed in accordance with U.S. Generally Accepted Accounting Principles and Rule 1.17, as applicable](#)
- (ii) [EXHIBIT C - MFUSA's summary schedule of adjusted net capital, net capital and excess net capital \(computed in accordance with 1.17\) and reflecting balances as of month-end for 12 most recent months. MFUSA does not have proprietary trading activity](#)

⁵ As discussed below, NFA publishes twice-monthly a report, which shows for each FCM, *inter alia*, the percentage of Customer Funds that are held in cash and each of the permitted investments under Commission Rule 1.25. The report also indicates whether the FCM held any Customer Funds during that month at a depository that is an affiliate of the FCM.

- (iii) MFUSA has one customer (MBL Customer Omnibus) that comprises over 50% of total funds held for futures customers, cleared swaps customers, and 30.7 customers;
- (iv) at this time, MFUSA does not enter into principal over-the counter transactions;
- (v) at this time, MFUSA has not obtained any unsecured lines of credit (or similar short-term funding);
- (vi) at this time, MFUSA does not provide financing for customer transactions involving illiquid financial products;
- (vii) at this time, MFUSA did not have to write-off futures customer, cleared swaps customer, and 30.7 customer receivable balances as uncollectable during the past 12-month period, as compared to the current balance of funds held for futures customers, cleared swaps customers, and 30.7 customers.

5. Additional Financial Data

- (i) [Daily statements of Segregated, Secured and Cleared Swaps requirements](#)
- (ii) [Monthly statements of Segregated, Secured and Cleared Swaps requirements \(1-FR-FCM\)](#)
- (iii) [EXHIBIT G - MFUSA Statement of Financial Condition March 2018](#)
- (iv) [EXHIBIT H - MFUSA Statement of Segregation Requirements and Funds in Segregation for Customers Trading on US Commodity Exchanges March 31, 2018](#)

Additional financial information on all FCMs is also available on the Commission's website at: <http://www.cftc.gov/MarketReports/FinancialDataforFCMs/index.htm>.

Customers should be aware that the NFA publishes on its website certain financial information with respect to each FCM. The FCM Capital Report provides each FCM's most recent month-end adjusted net capital, required net capital, and excess net capital. (Information for a twelve-month period is available.) In addition, NFA publishes twice-monthly a Customer Segregated Funds report, which shows for each FCM: (i) total funds held in Customer Segregated Accounts; (ii) total funds required to be held in Customer Segregated Accounts; and (iii) excess segregated funds, i.e., the FCM's Residual Interest. This report also shows the percentage of Customer Segregated Funds that are held in cash and each of the permitted investments under Commission Rule 1.25. Finally, the report indicates whether the FCM held any Customer Segregated Funds during that month at a depository that is an affiliate of the FCM.

The report shows the most recent semi-monthly information, but the public will also have the ability to see information for the most recent twelve-month period. A 30.7 Customer Funds report and a Customer Cleared Swaps Collateral report provides the same information with respect to the 30.7 Account and the Cleared Swaps Customer Account.

The above financial information reports can be found by conducting a search for a specific FCM in NFA's BASIC system (<http://www.nfa.futures.org/basicnet/>) and then clicking on "View Financial Information" on the FCM's BASIC Details page.

Effective July 2014, MFUSA will maintain a Risk Management Program for the monitoring and management of material risks to the firm, including market, credit, liquidity, foreign currency, legal (if applicable), operational, settlement, segregation, technological, capital, and any other applicable risks impacting the firm. The Risk Management Program will be administered by the Risk Management Group (RMG), a risk management unit independent of MFUSA that reports directly to senior management of Macquarie, with periodic reporting to the MFUSA Board. MFUSA has established controls, including policies and procedures, to effectively implement the Risk Management Program.

Additionally, MFUSA operates under, and is subject to, standards set forth in the Macquarie's Enterprise Risk Management Framework. This framework identifies expectations with respect to the management of MFUSA's primary risk exposures referenced above.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Member of Macquarie Futures USA LLC

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Macquarie Futures USA LLC as of March 31, 2018, including the related notes (collectively referred to as the “financial statement”). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of March 31, 2018 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

The financial statement is the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit of the financial statement in accordance with the standards of the PCAOB and in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as, evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

Supplemental Information

The accompanying schedules I, II, IIIa, IIIb, IVa, IVb, Va, and Vb are supplemental information required by Regulation 1.10 under the Commodity Exchange Act. The supplemental information is the responsibility of the Company’s management. The supplemental information has been subjected to audit procedures performed in conjunction with the audit of the Company’s financial statement. Our audit procedures included determining whether the supplemental information reconciles to the financial statement or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with Regulation 1.10 under the

Commodity Exchange Act. In our opinion, the schedules I, II, IIIa, IIIb, IVa, IVb, Va, and Vb are fairly stated, in all material respects, in relation to the financial statement as a whole.

Raymond Waterhouse Coopers LLP

New York, New York
May 29, 2018

We have served as the Company's auditor since 2006.

Macquarie Futures USA LLC

Notes to the Statement of Financial Condition

March 31, 2018

1. Organization

Macquarie Futures USA LLC (the “Company” and “MFUSA”) is a wholly owned subsidiary of Macquarie Trading Services Inc. (the “Parent”), which is an indirect subsidiary of Macquarie Bank Limited (“MBL”). The Company’s ultimate parent entity is Macquarie Group Limited (“MGL”), a non-operating holding company located in Sydney, Australia.

The Company’s principal business is to provide execution and clearing services of commodity futures and options transactions. The Company is a member of the National Futures Association and is registered with the Commodity Futures Trading Commission (“CFTC”) as a Futures Commission Merchant (“FCM”). The Company’s Designated Self Regulatory Organization (“DSRO”) is the Chicago Board of Trade of the Chicago Mercantile Exchange (“CME”) Group. The Company holds exchange memberships with, and is a clearing member of, the CME Group, Intercontinental Exchange (“ICE”) Futures US, ICE Futures Europe and Nodal Exchange.

The Company is headquartered in New York, New York and has its principal operations located in Chicago, Illinois.

2. Significant Accounting Policies

Basis of Accounting and the Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Foreign Currency Translation

The Company’s financial statements are presented in United States dollars. Assets and liabilities denominated in foreign currencies are translated at fiscal year-end rates of exchange, while income statement items are translated at spot exchange rates at the time of the transaction.

Cash

Cash consists of un-invested cash balances used in the daily operations of the business that are primarily maintained with one major bank.

Cash and Securities Segregated Pursuant to Federal Regulations

Pursuant to requirements of the Commodity Exchange Act (“Act”), funds deposited by customers relating to futures and option contracts in regulated commodities must be carried in separate accounts which are designated as segregated customers’ accounts. The Act authorizes FCMs to invest segregated customer funds in obligations of the United States (“U.S.”), in general obligations of any state of the U.S. or of any political subdivision thereof, and in obligations fully guaranteed as to principal and interest by the United States.

Macquarie Futures USA LLC

Notes to the Statement of Financial Condition (continued)

March 31, 2018

Cash and Securities Segregated Pursuant to Federal Regulations (continued)

Commission Rule 1.25 authorizes FCMs to invest segregated customer funds in instruments of a similar nature. Permitted investments include certificates of deposit from a bank that carries deposits insured by the Federal Deposit Insurance Corporation and interests in certain money market funds.

Receivable from and Payable to Broker-Dealers and Clearing Organizations

Receivable from broker-dealers and clearing organizations represent margin deposits, in the form of cash and securities, held at clearing organizations as well as amounts deposited with and receivable from broker-dealers, less any payables where any right of offset exists. Where amounts are owed to broker-dealers and clearing organizations, and there is no right of offset, the amount due is presented within Payable to clearing organizations on the Statement of Financial Condition.

Receivable from Customers and Affiliates

The Company owed amounts from customers and affiliates for services provided which are carried at cost, less any provision for loss. These amounts are recognized at the amount owed to the Company, less any provisions where it is not probable that the full amount will be collected.

Receivables from customers consist of amounts receivable from clearing and execution services provided to customers. The Company records an allowance for doubtful accounts against receivables from that are aged greater than 13 months. As of March 31, 2018, the Company held an allowance for doubtful accounts of \$253,456.

Exchange Memberships and Stocks

The Company has exchange membership seats which allow the Company to participate on the exchange as a full clearing member. The Company also owns common stock in ICE, which they are also required to hold in order to execute trades directly through the relevant exchanges. The holdings in ICE are listed on the New York Stock Exchange.

These exchange memberships and common stock holdings are recorded at original cost value or at a lesser amount if there is an other than temporary impairment in the value, based on observable traded market prices where available. If an impairment is recognized, there is no subsequent reversal until the investment is realized. As at March 31, 2018, the carrying value of Exchange Memberships and Stock was below the original cost value by \$2,523,750.

Payable to Customers, Non-customers, Parent and Affiliates

Payable to customers and non-customers consists of funds received, accrued interest payable on those funds, and the net market value of open option contracts with customers. Customers represent parties with whom the funds received and owed are required to be segregated from the Company's other assets. Non-customers are related parties and other broker-dealers whose funds are not required to be segregated.

Payables to Parent and affiliates consist of funds owed to the Parent and affiliates, including accrued interest payable on those funds, primarily from services provided to the Company.

Income Taxes

The Company is a member of the Macquarie America Holdings Inc. ("MAHI" or "consolidated group") tax consolidated group for U.S. federal income tax purposes and a member of a combined group for state and local income tax purposes. Where the consolidated group does not file a consolidated state and local income tax return, the Company must file on a standalone basis, if it is deemed to have a

Macquarie Futures USA LLC
Notes to the Statement of Financial Condition (continued)
March 31, 2018

Income Taxes (continued)

presence in that state. The amount of current and deferred taxes payable or receivable is recognized as of the date of the Statement of Financial Condition utilizing currently enacted tax laws and rates.

Deferred income taxes are recorded for the effects of temporary differences between the reported assets and liabilities in the Statement of Financial Condition and the tax basis of those assets and liabilities that will result in taxable or deductible amounts in the future based on tax laws and rates applicable to the periods in which the differences are expected to reverse. The Company assesses its ability to realize deferred tax assets primarily based on the Company and its Parent's historical earnings, future earnings potential and the reversal of taxable temporary differences when recognizing deferred assets. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The Company's deferred tax assets, to the extent they are not offset by the valuation allowance, are presented separately on the Statement of Financial Condition.

The Company follows accounting principles related to the accounting for uncertainty in income taxes. In this regard, the Company is required to determine whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation process, based on the technical merits of the position. The tax expense (benefit) to be recognized is measured as the largest amount of expense (benefit) that is greater than fifty percent likely of being realized upon ultimate settlement, which could result in the Company recording a tax liability.

Share Based Compensation

The Company participates in the share-based compensation plan of MGL, which include awards granted to employees under share acquisition plans, including those delivered through the Macquarie Employee Retained Equity Plan ("MEREP"). The MGL consolidated group recognizes an expense and a corresponding increase in equity in the case of equity settled awards granted to employees. The awards are measured at the grant dates based on their fair value and using the number of equity instruments expected to vest.

Fair Value of Financial Instruments

The Company is required to report the fair value of financial instruments, as defined. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are not adjusted for transaction costs. The recognition of "block discounts" for large holdings of unrestricted financial instruments where quoted prices are readily and regularly available in an active market is prohibited. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

- Level 2 Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Macquarie Futures USA LLC

Notes to the Statement of Financial Condition (continued)

March 31, 2018

Fair Value of Financial Instruments (continued)

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

As of March 31, 2018, the Company did not hold any financial instruments that are classified within Level 3 of the fair value hierarchy.

As of March 31, 2018, all financial assets and liabilities, other than certain Treasury Bills owned (see Note 4) and subordinated borrowings (see Note 11), were short term in nature and their carrying value approximated their fair value, and would be considered Level 2 in the fair value hierarchy.

New Accounting Standards Not Yet Adopted

In August 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-09, "Revenue from Contracts with Customers" to supersede the majority of current revenue recognition guidance under U.S. GAAP. The core principle of this guidance is that an entity should recognize revenue for the transfer of goods or services to customers in an amount that reflects the consideration the entity expects to receive in exchange for those goods or services. The guidance also requires additional disclosure about the nature, amount, and timing of revenue arising from customer contracts including significant judgments. The guidance is effective for the Company beginning April 1, 2019.

In March 2016, the Financial Accounting Standards Board issued ASU No. 2016-09, "Compensation - Stock Compensation" as a part of its Simplification Initiative. The guidance will affect the accounting for share-based payment transactions. The guidance is effective for the Company beginning April 1, 2018.

In March 2016, the Financial Accounting Standards Board issued ASU No. 2016-02, "Leases" to improve recognition of leases on the balance sheet. The guidance will be effective for the Company beginning April 1, 2020.

In June 2016, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") No. 2016-13, "Financial Instruments – Credit Losses". The main objective of this ASU is to require more appropriate timing of recording credit losses on financial instruments. The guidance will be effective for the Company beginning April 1, 2021.

In November 2016, the Financial Accounting standards Board issued ASU No. 2016-18 "Statement of Cash Flows – Restricted Cash". The guidance will amend the presentation and classification of changes in restricted cash in the statement of cash flows to eliminate current diversity in practice. The amended guidance requires the statement of cash flows to explain the change during the period in the total cash, cash equivalents, and amounts generally described as restricted cash and restricted cash equivalents. The guidance will be effective for the Company beginning April 1, 2019.

Macquarie Futures USA LLC
Notes to the Statement of Financial Condition (continued)
March 31, 2018

3. Cash and Securities Segregated Pursuant to Federal Regulations

At March 31, 2018, Cash and segregated securities consists of deposits with banks with 51% of the balance deposited with one financial institution. The Company also holds \$119,317,552 of U.S. and Canadian government securities at banks for customers that are required to be held in segregated accounts at the clearing organizations. These securities are not included in the balance stated on the Company's Statement of Financial Condition as they do not meet the criteria for recognition under U.S. GAAP.

4. Receivable from Broker-Dealers and Clearing Organizations

The Company has amounts receivable from broker-dealers and clearing organizations that are required by the Act to be held in segregated accounts at the clearing organizations. As at March 31, 2018, amounts receivable from broker-dealers and clearing organizations included the net market value of option contracts with the relevant exchanges and foreign board of trade.

Receivable from Broker-Dealers and Clearing Organizations as at March 31, 2018 included the following amounts, split between those amounts required to be segregated and those not required to be segregated:

	Segregated	Non- Customers	Total
Deposit with clearing organizations, net	\$1,440,201,116	\$554,395,528	\$1,994,596,644
Deposits with foreign boards of trade	18,821,205	697,650	19,518,855
US Treasury Bills held at clearing organizations	299,218,359	-	299,218,359
Net liquidating equity with other FCMs	973,254	-	973,254
Value of option contracts, net	7,836,751	-	7,836,751
Total Receivable from Broker-Dealers and Clearing Organizations	\$1,767,050,685	\$555,093,178	\$2,322,143,863

Deposits with foreign boards of trade represent amounts held with MBL. Other financial instruments are recorded at their contractual amounts which approximate their fair value as they are generally short term in nature and at market rates. They would also be considered Level 2 in the hierarchy as there is no active market price for the instruments.

	Level 1	Level 2	Level 3
US Treasury Bills held at clearing organizations	\$299,218,359	\$ -	\$ -
Total	\$299,218,359	\$ -	\$ -

Macquarie Futures USA LLC
Notes to the Statement of Financial Condition (continued)
March 31, 2018

5. Related Party Transactions

The Company provides execution and clearing services to MBL on behalf of its customers, which can include other affiliates of the Company. The Company also clears trades on all non-U.S. futures markets through MBL, an affiliated clearing broker. In connection with these activities, the Company had amounts payable at March 31, 2018 to MBL and affiliates of \$1,214,101,866 and \$488,050,170 included in Payable to customers and Payable to non-customers, respectively, as well as having deposits with MBL as disclosed in Note 4. In connection with these activities, as of March 31, 2018 the Company received securities collateral of \$311,520,400 from MBL (See Note 6).

The Company provides execution and clearing services for other affiliates of the Company. In connection with these activities, the Company had amounts receivable of \$67,726,368 included in Receivable from non-customers.

The Company is provided with operating and administrative services from the Parent and affiliates for which the Company is charged. In connection with these services, as well as other activity, the Company had a payable to Parent and affiliates of \$146,907,707 as at March 31, 2018.

At March 31, 2018, the Company had an outstanding subordinated debt payable of \$200,000,000 to its Parent (see Note 11).

6. Collateral Pledged and Received

The Company receives securities in connection with its clearing activities carried on behalf of MBL. As of March 31, 2018, the Company received collateral from MBL of \$311,520,400 for its client exposures, which was pledged to the clearing organization. These securities are not included in the balance stated on the Company's Statement of Financial Condition as they do not meet the criteria for recognition under U.S. GAAP.

7. Risk, Commitments, and Contingencies

Where the Company is not a clearing member, it will clear futures trades on behalf of customers and non-customers through a nonaffiliated clearing broker for U.S. markets and an affiliated clearing broker for non-U.S. markets. Pursuant to the terms of the agreements between the Company and its clearing broker, the clearing broker has the right to charge the Company for losses that result from its failure to fulfill its obligations. In accordance with the terms of business between the Company and its customers, the Company may pass these charges to its customers' counterparts and has the ability to pursue collection from or performance of its customers' obligations.

As the right to charge the Company has no maximum amount and is applied to all trades cleared through the clearing broker, the Company believes there is no maximum amount assignable to this right. As of March 31, 2018, the Company did not record liabilities with regard to the right. The Company's policy is to monitor the credit standing of the clearing brokers and all customers with which it conducts business.

In the normal course of business the Company enters into contracts that contain a variety of representations and warranties, which may provide general indemnifications. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. However, based on experience, the

Macquarie Futures USA LLC
Notes to the Statement of Financial Condition (continued)
March 31, 2018

7. Risk, Commitments, and Contingencies (continued)

Company expects the risk of loss to be remote and has not recorded an associated liability as of March 31, 2018.

The Company may also be exposed to credit risk regarding its cash and receivables, which are primarily receivable from financial institutions, including banks, clearing organizations and broker-dealers.

8. Employee Benefit Plans

The Company participates in the Parent's 401(k) Plan. Contributions to the 401(k) Plan are matched by the Company, up to specific limits. The Company matches 100% of the first 3% plus 50% of the next 2% of the employee's pre-tax contributions with a maximum contribution of 4% up to the matching limit of \$11,000 (based on the maximum IRS compensation limit of \$275,000). A vesting schedule applies to all matched contributions based on the number of years of service with the Company. Substantially all employees are eligible to participate in the plan.

9. Employee Share Based Compensation

Macquarie Group Employee Retained Equity Plan

The Macquarie Group Employee Retained Equity Plan ("MEREP") is a flexible plan structure that offers different types of equity grants. Participation in the MEREP is currently provided to Associate Directors and above. The plan includes a decrease in the portion of the staff profit share paid in cash, an increase in the portion delivered as equity and an increase in the proportion of deferred remuneration. In most cases the equity grants are in the form of restricted share units ("RSU") comprising a beneficial interest in MGL shares held in trust for the staff member. The participant in the RSU is entitled to receive dividends on the share and direct the trustee how to exercise voting rights in the share. RSUs are the primary form of award under the MEREP. The Company expenses MEREP over the vesting period. The MEREP awards will vest over periods from three to five years for most Executive Directors, three to seven years for members of the Executive Committee and Designated Executive Directors (members of the Operations Review Committee and other Executive Directors with significant management or risk responsibility) and two to four years for other staff, including staff promoted to a Director level. The shares issued will be fully paid ordinary Macquarie Group Limited shares (symbol: MQG, listed on the Australian Securities Exchange) and will be issued to the MEREP trustee at the closing price of MGL shares on the day before the awards are issued.

For profit share awards representing 2017 retention, the conversion price was the volume weighted average price from May 16, 2017 up to and including the date of the allocation, which was June 22, 2017. That price was calculated to be AUD 89.25 (USD \$66.95) per share. Share based compensation is measured based on fair value, determined by the grant-date fair value price. The weighted average fair value of the awards granted during the financial year was AUD 90.20 (USD \$69.80) per share. Vesting for retained deferred profit share awards is five years, transitional awards vest after seven years and retained profit share awards vest after three years.

Macquarie Futures USA LLC
Notes to the Statement of Financial Condition (continued)
March 31, 2018

9. Employee Share Based Compensation (continued)

The following is a summary of awards which have been granted pursuant to the MEREP:

Non-vested shares at April 1, 2017	42,678
Vested shares during the year	(12,514)
Transfers to related body corporate entities	(6,373)
Shares granted during the year	15,578
Shares forfeited during the year	(350)
Non-vested shares at March 31, 2018	<u>39,019</u>

10. Minimum Capital Requirements

The Company is subject to the minimum capital requirements pursuant to regulations under the Act, as amended. At March 31, 2018, the Company had adjusted net capital of \$275,031,797 which was \$113,143,899 in excess of its minimum capital requirements under Regulation 1.17d of the Commodity Exchange Act.

11. Subordinated Borrowings

The Company has a revolving subordinated loan agreement (“Agreement”) with its Parent for an amount of \$200,000,000.

Subordinated Borrowings as of March 31, 2017	\$ 200,000,000
Increases:	-
Decreases:	-
Subordinated Borrowings as of March 31, 2018	<u>\$ 200,000,000</u>

The revolving subordinated loan accrues monthly interest. With respect to maturity dates, \$75,000,000 is due on August 31, 2019 and \$125,000,000 is due on January 28, 2020. Under the Agreement, the interest charged by the Parent to the Company is at a rate agreed upon between the borrower and the lender. The interest rate charged by the Parent to the Company is a floating rate which approximates that of the London Inter-Bank Offer Rate (“LIBOR”). The fair value of the loan at a comparable market interest rate would approximate \$208,457,178. Interest is computed on the basis of a year consisting of 365 days and paid for the actual number of days elapsed.

The subordinated borrowings are with related parties and are available in computing net capital under CFTC Regulation 1.17 net capital rule. To the extent that such borrowings are required for the Company’s continued compliance with minimum net capital requirements, they may not be repaid in accordance with the Agreement.

Macquarie Futures USA LLC

Notes to the Statement of Financial Condition (continued)

March 31, 2018

12. Income Taxes

The Company is a member of Macquarie America Holdings Inc. ("MAHI" or "consolidated group") consolidated group for U.S. federal income tax purposes and a member of a combined group for state and local income tax purposes. Federal and state income taxes as well as benefits for federal and state net operating losses are allocated based on a formal tax sharing agreement between the Company and the Parent of the consolidated group.

The consolidated federal and combined state and local tax returns are subject to audits by relevant taxing authorities. Currently, the IRS is examining the U.S. federal consolidated group, Macquarie Funding Holdings Inc. ("MFHI"), for years ending March 31, 2008 through March 31, 2011 and the U.S. federal consolidated group for Macquarie Services (USA) Partners ("MSUP"), for years ending March 31, 2012 through March 31, 2013. New York State is examining the consolidated group MFHI for years ending March 31, 2009 through March 31, 2011 and the consolidated group MSUP for the years ending March 31, 2012 through March 31, 2015. The Company was part of the MFHI and MSUP consolidated tax groups for these periods.

The Company determined reasonable estimates for certain effects of the Tax Cuts and Jobs Act ("2017 Tax Act") enacted on December 22, 2017 and recorded those estimates as provisional amounts in the 2018 financial statements. Under the 2017 Tax Act, the statutory federal corporate income tax rate was reduced from 35% to 21%. As a fiscal year end entity, the Company computed a tentative tax for the year ended March 31, 2018 using a "blended" tax rate of 31.5%. This rate is used to compute the current year tax expense, while all deferred tax assets and liabilities as of March 31, 2018 are calculated using the 21% rate, which is the rate expected to be applied when the temporary differences are to be realized or settled. In accordance with Securities and Exchange Commission ("SEC") Staff Accounting Bulletin No. 118 ("SAB 118"), the Company may make additional adjustments during 2018 (the measurement period) to the income tax balance sheet accounts as the U.S. Department of the Treasury issues further guidance and interpretations.

Deferred taxes result from temporary differences between tax laws and financial accounting standards. Temporary differences primarily include goodwill deductible for tax purposes, bad debts, and depreciation. These result in a net deferred tax asset of \$602,307.

The Company uses the separate company method of tax allocation as modified for benefits-for-loss. This approach modifies the "separate return method", a method that allocates current and deferred taxes to members of the group by applying ASC 740 to each member as if it were a separate taxpayer, so that net operating losses (or other current or deferred tax attributes) are characterized as realized (or realizable) by the subsidiary when those tax attributes are realized (or realizable) by the consolidated group even if the subsidiary would not otherwise have realized the attributes on a stand-alone basis.

Valuation Allowance

The Company assesses its ability to realize deferred tax assets primarily based on the future earnings potential and the reversal of taxable temporary differences when recognizing deferred assets. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The Company has determined that it is more likely than not that they will realize their deferred tax assets. Therefore, the Company does not have a valuation allowance.

Macquarie Futures USA LLC
Notes to the Statement of Financial Condition (continued)
March 31, 2018

12. Income Taxes (continued)

Accounting for Uncertainty in Income Taxes

The Company accounts for uncertain tax positions by prescribing a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities for the year ended March 31, 2018. Interest expenses related to unrecognized tax benefits are included in Income tax expense. Penalties, if any, are recognized as a component of Administration fees.

The Company did not have any potential exposure for tax, interest and penalties related to uncertain tax positions for the year ended March 31, 2018.

13. Subsequent Events

The Company has evaluated subsequent events through May 29, 2018, the date of issuance of these financial statements. The Company did not have any significant subsequent events to report.
