Presentation to investors and analysts
Result announcement for the full year ended 31 March 2019
3 May 2019
Disclaimer

The material in this presentation has been prepared by Macquarie Group Limited ABN 94 122 169 279 (MGL) and is general background information about Macquarie’s (MGL and its subsidiaries) activities current as at the date of this presentation. This information is given in summary form and does not purport to be complete. The material contained in this presentation may include information derived from publicly available sources that have not been independently verified. Information in this presentation should not be considered as advice or a recommendation to investors or potential investors in relation to holding, purchasing or selling securities or other financial products or instruments and does not take into account your particular investment objectives, financial situation or needs. Before acting on any information you should consider the appropriateness of the information having regard to these matters, any relevant offer document and in particular, you should seek independent financial advice. No representation or warranty is made as to the accuracy, completeness or reliability of the information. All securities and financial product or instrument transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments and, in international transactions, currency risk.

This presentation may contain forward looking statements – that is, statements related to future, not past, events or other matters – including, without limitation, statements regarding our intent, belief or current expectations with respect to Macquarie’s businesses and operations, market conditions, results of operation and financial condition, capital adequacy, provisions for impairments and risk management practices. Readers are cautioned not to place undue reliance on these forward looking statements. Macquarie does not undertake any obligation to publicly release the result of any revisions to these forward looking statements or to otherwise update any forward looking statements, whether as a result of new information, future events or otherwise, after the date of this presentation. Actual results may vary in a materially positive or negative manner. Forward looking statements and hypothetical examples are subject to uncertainty and contingencies outside Macquarie’s control. Past performance is not a reliable indication of future performance.

Unless otherwise specified all information is for the year ended 31 March 2019.

Certain financial information in this presentation is prepared on a different basis to the Financial Report within the Macquarie Group Annual Financial Report ("the Financial Report") for the year ended 31 March 2019, which is prepared in accordance with Australian Accounting Standards. Where financial information presented within this presentation does not comply with Australian Accounting Standards, a reconciliation to the statutory information is provided.

This presentation provides further detail in relation to key elements of Macquarie’s financial performance and financial position. It also provides an analysis of the funding profile of Macquarie because maintaining the structural integrity of Macquarie’s balance sheet requires active management of both asset and liability portfolios. Active management of the funded balance sheet enables the Group to strengthen its liquidity and funding position.

Any additional financial information in this presentation which is not included in the Financial Report was not subject to independent audit or review by PricewaterhouseCoopers. Numbers are subject to rounding and may not fully reconcile.

About Macquarie

Annuity-style businesses

Macquarie Asset Management (MAM)
- Top 50 global asset manager with $A542.7b of assets under management, diversified across regions, products, asset classes and investor types
- Provides investment solutions to clients across a range of capabilities, including infrastructure, real estate, agriculture, equities, fixed income, private credit, liquid alternatives and multi-asset solutions

Corporate and Asset Finance (CAF)
- Global provider of specialist finance and asset management solutions, with a $A21.3b asset and loan portfolio
- Asset Finance delivers a range of tailored finance solutions globally across a variety of industries and asset classes
- Principal Finance provides flexible primary financing solutions and engages in secondary market investing, across the capital structure. It operates globally in the corporate, transportation and real estate sectors

Banking and Financial Services (BFS)
- Macquarie’s retail banking and financial services business with total BFS deposits of $A53.4b, Australian loan and lease portfolio of $A62.5b and funds on platform of $A86.0b
- Provides a diverse range of personal banking, wealth management, business banking and vehicle finance products and services to retail clients, advisers, brokers and business clients

Markets-facing businesses

Commodities and Global Markets (CGM)
- Integrated, end-to-end offering across global markets including equities, fixed income, foreign exchange and commodities
- Provides clients with risk and capital solutions across physical and financial markets
- Diverse platform covering more than 25 market segments, with more than 160 products
- Growing presence in commodities (natural gas, LNG, NGLs, power, oil, coal, base metals, iron ore, sugar and freight)
- Global institutional securities house with strong Asia-Pacific foundations covering sales, research, ECM, execution and derivatives and trading activities

Macquarie Capital (MacCap)
Global capability in:
- Advisory and capital raising services, providing clients with specialist expertise, innovative advice and flexible capital solutions across a range of sectors and products including investing alongside partners and clients
- Infrastructure, green and conventional energy, focusing on utilising balance sheet to construct assets, build businesses and create platforms across development, construction and operational phases

Since 1 December 2018, certain businesses were reorganised between Operating Groups to better align businesses with a shared focus on particular customer segments and geographies. This included the transfer of Macquarie’s Australian vehicle finance business from CAF into BFS, the MSIS business from MAM to CAF and Macquarie Capital’s global real estate business into MAM to merge with MIRA Real Estate. These changes were announced as part of Macquarie’s 1H19 results on 2 November 2018. Comparatives have been restated to reflect this reorganisation between Operating Groups. Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax. Pie chart is based on FY19 net profit contribution from Operating Groups as reported on 3 May 19. 1. P&I Largest Money Managers 2018. 2. As at 31 Mar 19. 3. BFS deposits exclude corporate/wholesale deposits. 4. The Australian loan and lease portfolio comprises residential mortgages, loans to Australian businesses, vehicle finance, insurance premium funding and credit cards. 5. Funds on platform includes Macquarie Wrap and Vision. 6. Includes general plant & equipment.
### 2H19 result: $A1,672m up 28% on 1H19; up 28% on 2H18

2H19 net profit contribution from Operating Groups
$A3,544m up 36% on 1H19; up 48% on 2H18

**ANNUITY-STYLE BUSINESSES**

$A1,823m ▲ 25% ON 1H19 ▲ 35% ON 2H18

**MAM: ▲ on 1H19**
Increased combined performance fees and investment-related income net of impairments

**CAF: ▲ on 1H19**
Asset Finance income lower due to fewer asset sales and legacy lending transaction-related expenses in 2H19; higher income in Principal Finance due to realisations including the sale of its majority stake in Energetics and asset sales in Transportation Finance

**BFS: flat on 1H19**
Growth in total BFS deposits and Australian loan portfolio, offset by decrease in Australian vehicle finance portfolio and the impact of realigning the wealth advice business to focus on the high net worth segment

**MARKETS-FACING BUSINESSES**

$A1,721m ▲ 51% ON 1H19 ▲ 64% ON 2H18

**CGM: ▲ on 1H19**
Strong contribution from the commodities platform driven by increased client activity and improved trading opportunities, partially offset by higher expenses reflecting increased trading activity, higher average headcount and technology investment; consistent performance from fixed income, currencies and futures, offset by challenging market conditions in equities

**Macquarie Capital: ▲ on 1H19**
Higher investment-related income due to asset realisations and increased M&A fee income from ANZ and the US, partially offset by lower DCM and ECM fee income and increased net credit and other impairment charges due to a small number of underperforming investments

Since 1 December 2018, certain businesses were reorganised between Operating Groups to better align businesses with a shared focus on particular customer segments and geographies. This included the transfer of Macquarie’s Australian vehicle finance business from CAF into BFS, the MSIS business from MAM to CAF and Macquarie Capital’s global real estate business into MAM to merge with MIRA Real Estate. These changes were announced as part of Macquarie’s 1H19 results on 2 November 2018. Comparatives have been restated to reflect this reorganisation between Operating Groups. Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax. Pie chart is based on 2H19 net profit contribution from Operating Groups.

1. Impact in FY19 from AASB 15 Revenue from Contracts with Customers of $A262m.
2. Calculation of the effective tax rate is after adjusting for the impact of non-controlling interests.
FY19 net profit contribution from Operating Groups
$A6,145m up 21% on FY18

ANNUITY-STYLE BUSINESSES

$A3,287m ▼4% ON FY18

MAM: ▼ on FY18
Increased base fees, offset by higher operating expenses and lower combined performance fees and investment-related income

CAF: ▼ on FY18
Higher Asset Finance portfolio income more than offset by one-off investment-related income in the prior year and legacy lending transaction-related expenses; higher investment-related income in Principal Finance, offset by lower interest income from the loan portfolio; reduced provisions and impairments in the prior year

BFS: ▲ on FY18
Growth in Australian loan portfolio, BFS deposits and funds on platform, partially offset by a decline in the Australian vehicle finance portfolio and increased costs associated with investment in technology

MARKETS-FACING BUSINESSES

$A2,858m ▲76% ON FY18

CGM: ▲ on FY18
Strong performance in commodities and improved results in foreign exchange, interest rates and credit, partially offset by challenging market conditions in Cash Equities, increased impairments and operating expenses

Macquarie Capital: ▲ on FY18
Higher investment-related income due to asset realisations and increased fee and commission income, partially offset by higher net credit and other impairment charges and increased expenditure on green energy and other projects in the development phase

Since 1 December 2018, certain businesses were reorganised between Operating Groups to better align businesses with a shared focus on particular customer segments and geographies. This included the transfer of Macquarie’s Australian vehicle finance business from CAF into BFS, the MSIS business from MAM to CAF and Macquarie Capital’s global real estate business into MAM to merge with MIRA Real Estate. These changes were announced as part of Macquarie’s 1H19 results on 2 November 2018. Comparatives have been restated to reflect this reorganisation between Operating Groups. Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax. Pie chart is based on FY19 net profit contribution from Operating Groups.
Financial performance

Operating income

FY19: $A12,754m  \(\uparrow 17\% \text{ on FY18}\)

Profit

FY19: $A2,982m  \(\uparrow 17\% \text{ on FY18}\)

EPS

FY19: $A8.83  \(\uparrow 17\% \text{ on FY18}\)

DPS

FY19: $A5.75  \(\uparrow 10\% \text{ on FY18}\)
Business Mix

Annuity-style businesses represent approximately 53% of the Group’s performance\(^1\)

---

Comparative figures have been restated to conform to changes in current year financial presentation and group restructures, where necessary.

1. Based on FY19 net profit contribution from Operating Groups. 2. Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax.
Assets under management of $A551.3b

AUM increased 11% from $A496.7b at 31 March 2018

Increase due to investments made by MIRA-managed funds, foreign exchange impacts, contributions from businesses acquired during the current year and market movements, partially offset by asset realisations made by MIRA-managed funds and net flows in MIM.

Note: Includes MAM, CAF and BFS AUM as at 31 Mar 19. Prior year numbers have not been restated for the reorganisation between Operating Groups.

A 10% movement\(^2\) in AUD is estimated to have approximately a 7% impact on NPAT

---

1. Excluding earnings on capital and other corporate items. 2. This represents an average movement against all major currencies.
Macquarie Asset Management

**MACQUARIE INFRASTRUCTURE AND REAL ASSETS (MIRA)**
- $A116.9b in equity under management, up 36% on Mar 18. The increase is primarily due to new equity raised, the acquisition of GLL Real Estate Partners (GLL) and the merger of Macquarie Capital’s real estate business into MIRA
- Raised $A18.9b in new equity, including new commitments for funds and co-investments in Europe, North America, Australia and South Korea
- Invested $A10.9b across 13 acquisitions and 26 follow-on investments including infrastructure across Europe, the Americas and Asia, and agriculture in Australia
- Equity proceeds from asset divestments of $A8.7b in Germany, Canada, New Zealand, Mexico, US, India and Russia
- $A25.5b of equity to deploy at 31 Mar 19 reflects the recent infrastructure raisings in the US and Europe
- Build out of the real estate platform to AUM $A26.8b through the acquisition of GLL Real Estate Partners and the merger of Macquarie Capital’s global real estate business into MIRA
- Appointed as investment manager of The Infrastructure Fund (TIF), a $A2.5b unlisted infrastructure fund in Australia
- No.1 infrastructure manager globally

**MACQUARIE INVESTMENT MANAGEMENT (MIM)**
- $A361.0b in assets under management, up 8% on Mar 18, largely due to foreign exchange, market movements and the acquisition of Valuelink
- Acquired Valuelink Asset Management S.A., a value-oriented investment manager focused on global equities with ~€4b in AUM
- Significant investment in MIM’s global operating platform to create a platform for sustainable and scalable future growth
- Launched a number of new capabilities including:
  - Macquarie Income Opportunities Fund on the ASX mFund platform
  - Macquarie Insurance Dedicated Infrastructure Fund, a unique offering for insurance companies delivered by investment teams across MAM
  - New strategies for Global Listed Real Assets and Global Natural Resource equities
- In April 2019, agreed to acquire the assets related to the mutual fund business of Foresters Investment Management Company, Inc., the investment adviser of the First Investors funds, adding $US12.3b of AUM on completion. In addition, MIM chosen to manage a portion of Foresters’ life insurance general account. The transaction is expected to close in Q4 CY19
- 2019 Investment Manager of the Year in Australia by the Financial Standard Investment Leadership Awards
- Received two Lipper awards and one Euro Funds award

---

**NET PROFIT CONTRIBUTION**

**Asset, Loan & Transportation Portfolio**

$A21.3b  

FLAT  

\[\text{ON MAR 18}\]

**Asset Finance**

- Asset Finance portfolio of $A8.0b, up 2% on Mar 18 due to growth in Technology, Energy and Ship Finance
- **Notable deals**
  - Worked with the UK's largest energy supplier to enhance their existing smart meter facility to better match their rollout program and extend the tenor of our existing financing
  - Assisted in providing funding solutions for a major US telco to assist with its ongoing network deployment
  - Arrangement and underwrite of €137.0m European airline facility financing
- Continued growth in mobile device finance programs with over 1.2m devices
- Continued opportunities in the ship financing market with new loans of more than $A400m being written during the year
- Continued to grow the Macquarie Infrastructure Debt Investment Solutions (MIDIS) business:
  - Closed 21 third party investor commitments totalling $A2.8b, bringing total commitments on MIDIS platform to $A11.2b
  - Closed 21 investments totalling $A2.2b in US, UK, France, Spain and Australia, bringing total AUM to $A8.2b
  - $A3.0b of capital to deploy as at 31 Mar 19

**Principal Finance**

- Principal Finance’s portfolio of $A4.1b, down 12% on Mar 18 due to net repayments and realisations
- Transportation Finance’s portfolio of $A9.2b, up 5% on Mar 18 due to acquisition of rotorcraft assets in the portfolio offset by asset depreciation
- **Notable deals**
  - Acquisition of a 50% interest in a portfolio of multifamily rental properties and development pipeline in the US
  - Acquisition of a 120 rotorcraft portfolio from Waypoint Leasing (Ireland) Ltd
  - Sale of Principal Finance’s majority stake in Energetics, a leading UK multi-utility network provider, to a European infrastructure investor
  - In April 2019, Macquarie entered into a sales agreement with a third-party investor for 25% of Macquarie Air Finance (MAF). MAF will be deconsolidated and become a Macquarie-managed entity for which Macquarie will earn fees for management support and origination services
- Asset quality remains sound and the portfolio continues to generate strong overall returns

**Note:** Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax. Pie chart is based on FY19 net profit contribution from Operating Groups.
Banking and Financial Services

$A756m  ▲ 3%  ON FY18

**AUSTRALIAN CLIENT NUMBERS**

MORE THAN 1.5 million

---

**PERSONAL BANKING**

- Australian mortgage portfolio of $A38.5b, up 18% on Mar 18, representing approximately 2% of the Australian market
- Continued investment in the home loan origination process to improve customer experience
- Macquarie Transaction Account named as a winner in the 2019 Mozo Experts Choice Awards for Exceptional Everyday Account. Macquarie also awarded a Mozo Experts Choice Award for Internet Banking
- Macquarie Transaction Account maintained Canstar’s 5-Star Rating for Outstanding Value

**BUSINESS BANKING**

- Business banking deposit volumes up 8% on Mar 18
- Business banking loan portfolio of $A8.2b up 12% on Mar 18
- Total business banking clients up 4% on Mar 18
- Won Best Non Major Business Bank and Best Industry Specialisation awards at the 2018 Australian Business Banking Awards
- Sold stake in insurance funding business, Macquarie Pacific Funding, to Steadfast Group
- Ongoing focus on third party distribution with continued growth in SME and middle market cash flow lending and deposits

**LEASING**

- Australian vehicle finance portfolio of $A15.2b, down 5% on Mar 18 due to declining new car sales nationally, lower dealer finance and run off in previously acquired portfolio
- Macquarie Vehicle Leasing (Leasing) transferred into BFS from CAF on 1 Dec 18 and will be fully integrated into the Personal Banking and Business Banking channels for FY20

**DEPOSITS**

- Total BFS deposits of $A53.4b, up 17% on Mar 18
  - CMA deposits of $A27.2b, up 5% on Mar 18

---

**WEALTH MANAGEMENT**

- Funds on platform of $A86.0b, up 4% on Mar 18
- Expanded Macquarie Wrap managed accounts offering, with assets under management of $A2.3b, up from $A1.1b in Mar 18
- Continued implementation of cloud-based investment and portfolio management platform as part of ongoing wealth platform transformation
- Awarded Outstanding Private Bank in Australia in the $A10m+ category at the 2018 Australian Business Banking Awards for the second year in a row
- Named Retail Superannuation Fund of the Year at the Roy Morgan Customer Satisfaction Awards 2019

---

Note: Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax. Pie chart is based on FY19 net profit contribution from Operating Groups.

1. Canstar 5-Star Rating for Outstanding Value Transaction Account – High transaction and low transaction profiles. 2. Funds on platform includes Macquarie Wrap and Vision. 3. Includes general plant & equipment. 4. BFS deposits exclude corporate/wholesale deposits.
Commodities and Global Markets

Commodity Markets (Physical & Financial) 83%¹

- Strong results across the commodities platform, particularly from North American Gas and Power, Global Oil, and EMEA Gas and Power
- Significant contribution from the North American Gas and Power business driven by supply-demand imbalance across regional US centres
- Increased client hedging activity and improved trading opportunities
- Gains on physical and financial oil trading across Europe and North America
- Consistent contribution from Agriculture, Metals and Mining
- Increased average index volumes in investor products business
- Ranked No.1 North America Power Dealer of the Year³

Financial Markets (Primary & Secondary) 11%¹

- Strong result across the platform
- Increased sales and hedging activity in foreign exchange across all regions
- Improved client demand for UK securitisations

Fixed Income & Currencies

- Result up on FY18 due to continued growth from settlement financing activity with clients engaged in the US corporate direct lending market

Credit Markets

- Result impacted by challenging market conditions and reduced opportunities
- Maintained platform strength in Australia
- Ongoing investment in technology
- Ranked 2nd overall for Research in 2018 Peter Lee survey of Australian institutional investors
- No.2 in Australian and New Zealand ECM⁴

CASH EQUITIES AND EQUITY DERIVATIVES & TRADING

- Strong overall result primarily driven by increased contribution from the US and continued strength in Australia due to client activity
- Ranked No.1 Futures broker on the ASX⁵

FUTURES

Note: Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax. Pie chart is based on FY19 net profit contribution from Operating Groups.

Summary highlights
• Continued focus on green energy with over 90 projects under development or construction at 31 Mar 19
• Acquisition of Conergy Asia, a platform with significant capabilities in solar
• Total investment in green energy of $A1.1b at 31 Mar 19, investments made of $A0.7b and investments realised of $A0.8b for FY19

Notable deals
• Green Investment Group (GIG) agreed to acquire Savion (the solar development and energy storage unit of Enel Green Power subsidiary Tradewind Energy), securing a 6GW pipeline of 100+ utility-scale projects and advancing GIG’s vision to create a leading US development platform. The transaction is subject to regulatory approval
• Realisation of Macquarie’s 21.8% interest in Quadrant Energy through the sale of 100% of the business to Santos Limited for $US2.2b
• Co-developer, financial adviser and equity investor for the $A698m Kwinana Waste to Energy Project, the first of its kind in Australia
• 100% equity sponsor and sole financial adviser building ~530 social housing units in Dublin for completion by 2021, followed by full maintenance over a 27 year concession

Awards/Ranking
• Asia-Pacific Clean Energy Deal of the Year (Kwinana Waste to Energy)
• Asia-Pacific Renewables Deal of the Year (Formosa 1)
• Infrastructure and Project Finance Deal of the Year 2018 (Europe)
• Latin America Conventional Project Finance Deal of the Year (Norte III)
• Most Innovative Investment Bank for Infrastructure and Project Finance
• World’s Best Investment Bank in Infrastructure sector

Funded balance sheet remains strong

Term liabilities exceed term assets

These charts represent Macquarie’s funded balance sheets at the respective dates noted above. For details regarding reconciliation of the funded balance sheet to Macquarie’s statutory balance sheet refer to slide 10. 1. ‘Other debt maturing in the next 12 months’ includes Structured Notes, Secured Funding, Bonds, Other Loans, Subordinated debt maturing within the next 12 months and Net Trade Creditors. 2. ‘Debt maturing beyond 12 months’ includes Subordinated debt not maturing within next 12 months. 3. Non-controlling interests netted down in ‘Equity and hybrids’ and ‘Equity investments and PPE’ and ‘Loan assets (incl. op lease) > 1 year’. 4. Hybrid instruments include Macquarie Income Securities, Macquarie Additional Capital Securities, Macquarie Capital Notes 2, 3 & 4 and Macquarie Bank Capital Notes. 5. ‘Cash, liquids and self-securitised assets’ includes self-securitisation of repo eligible Australian assets originated by Macquarie. 6. ‘Loan Assets (incl. op lease) < 1 year’ includes Net Trade Debtors. 7. ‘Loan Assets (incl. op lease) > 1 year’ includes Debt Investment Securities. 8. ‘Equity investments and PPE’ includes Macquarie’s co-investments in Macquarie-managed funds and equity investments. 9. Total customer deposits as per the funded balance sheet ($A56.0b) differs from total deposits as per the statutory balance sheet ($A56.2b). The funded balance sheet reclassifies certain balances to other funded balance sheet categories. 10. Issuances cover a range of tenors, currencies and product types and are AUD equivalent based on FX rates at the time of issuance and include undrawn facilities.
Basel III capital position

- APRA Basel III Group capital at Mar 19 of $A21.8b, Group capital surplus of $A6.1b
  1, 2
- APRA Basel III CET1 ratio: 11.4%; Harmonised Basel III CET1 ratio: 14.3% 3, 4

1. Calculated at 8.5% RWA including the capital conservation buffer (CCB), per APRA ADI Prudential Standard 110. 2. Based on materiality, the 8.5% used to calculate the Group capital surplus does not include the countercyclical capital buffer (CCyB) of ~10bps. The individual CCyB varies by jurisdiction and the Bank Group's CCyB is calculated as a weighted average based on exposures in different jurisdictions. 3. Basel III applies only to the Bank Group and not the Non-Bank Group. 4. Harmonised Basel III estimates are calculated in accordance with the BCBS Basel III framework. 5. Includes $A0.9b issuance of Macquarie Capital Notes 4 in Mar 19, $A1.0b of Macquarie Capital Notes 3 in Jun 18 and redemption of $A0.6b of Macquarie Capital Notes in Jun 18. 6. Includes the transfer of CAF Principal Finance and CAF Transportation Finance to the Non-Bank Group. 7. Includes the foreign currency translation reserve, the share based payment reserve, MEREP and other movements. 8. APRA Basel III 'super equivalence' includes the impact of changes in capital requirements in areas where APRA differs from the BCBS Basel III framework and includes differences in mortgages treatment $A0.7b; capitalised expenses $A0.4b; equity investments $A0.3b; investment into deconsolidated subsidiaries $A0.2b; DTAs and other impacts $A0.3b.
Business growth

Business capital requirements

FY19 KEY DRIVERS

Continuing business growth offset by equity investment realisations

MAM
- Investment in MIRA managed funds and real estate offset by decrease in short-term underwriting of seed assets

CAF
- Includes rotorcraft acquisition and principal investments offset by the sale of Energetics, loan repayments and the impact of the transfer of CAF Principal Finance and CAF Transportation Finance to the Non-Bank Group

BFS
- Increase in mortgages and business banking loan portfolios, partially offset by decrease in the vehicle finance portfolio

CGM
- Increased trading activity, net of impairments and realisation of equity positions

MacCap
- $A1.5b of investments net of $A1.5b of realisations including sell downs of Quadrant Energy and PEXA

Corporate
- Primarily driven by commitment for Martin Place Metro
Strong regulatory ratios

Bank Group (Mar 19)

1. 'Harmonised' Basel III estimates are calculated in accordance with the BCBS Basel III framework.
2. Average LCR for Mar 19 quarter is based on an average of daily observations. Includes the capital conservation buffer in the minimum CET1 ratio requirement. In Nov 18, APRA released a draft update to 'Prudential Standard APS 110 Capital Adequacy' proposing a minimum requirement for the leverage ratio of 3.5% effective Jan 22.

Management changes

Commodities and Global Markets (CGM)

- Effective 31 March 2019, Andrew Downe stepped down as Group Head of CGM and from the Executive Committee. He will continue to lead the Cash Equities business globally and retain regional leadership for CGM in Asia. Mr Downe has been with Macquarie for 37 years and on the Executive Committee for 22 years.

- Effective 1 April 2019, Nicholas O’Kane became Group Head of CGM, following two years of transition in anticipation of this change. Mr O’Kane has been with Macquarie for 24 years and on the Executive Committee since June 2017. He has extensive experience in global commodities and financial markets, leading CGM’s global energy markets business since 2007, which in 2017 was expanded to include all commodity financing, trading and client coverage activities across energy, metals and agriculture.

Macquarie Capital (MacCap)

- Effective 31 May 2019, Tim Bishop will step down as Group Head of Macquarie Capital and from the Executive Committee. He will become Chairman of Macquarie Capital to assist with transition. Mr Bishop has been with Macquarie for 20 years, on the Executive Committee for nine years and Head of Macquarie Capital for seven years.

- Effective 1 June 2019, Daniel Wong, currently Global Co-Head of the Infrastructure and Energy Group based in London, and Michael Silverton, currently Head of the Americas, Europe and Asia Group based in New York, will become Group Co-Heads of Macquarie Capital and join the Executive Committee. Both have been with Macquarie for 20 years, the majority of which has been spent building the Macquarie Capital business in international markets.

</tbody>
</table>

- Net interest and trading income of $A4,551m, up 15% on FY18
  - Increased contribution across CGM’s commodities platform driven by client hedging activity in Risk management and significant opportunities in North American Gas and Power due to supply-demand imbalances
  - Partially offset by lower interest income from CAF’s Principal Finance loan portfolio
- Fee and commission income of $A5,526m, up 18% on FY18
  - Increase in base fees from investments made by MIRA-managed funds, favourable foreign exchange movements, and contributions from businesses acquired during the year, and higher performance fees from a broad range of MIRA-managed funds, managed accounts and co-investors in MAM
  - Higher M&A and other fee income in Macquarie Capital
  - Increase in income following the adoption of AASB 15 ($A262m), offset by brokerage, commissions and trading-related expenses
- Share of net losses of associates and joint ventures of $A56m, significantly down on FY18, primarily reflecting a change in the composition and performance of investments in Macquarie Capital’s portfolio, including increased expenditure on green energy and other projects in the development phase
- Higher credit and other impairment charges compared to FY18, mainly reflecting impairment charges related to a small number of underperforming investments in Macquarie Capital and specific commodity equity positions in CGM. FY18 included the write-down of MIRA’s investment in MIC
- Investment income of $A2,102m, up 70% on FY18, primarily due to higher revenue from asset realisations, particularly in the technology, green energy and conventional energy sectors in Macquarie Capital and investment realisations in CAF Principal Finance including Energetics, partially offset by the non-recurrence of gains on reclassification of certain investments in MAM and CAF
- Total operating expenses of $A8,887m, up 19% on FY18 mainly due to increased performance-related profit share and share-based payments expense, higher average headcount, an increase in business activity and investment in technology projects, the impact of AASB 15 adoption and unfavourable foreign exchange movements
Operating expenses

Operating expenses excluding the impact of FX and AASB 15 are up 12%

KEY DRIVERS
- Following the adoption of AASB 15, $A262m of fee expenses relating to stock borrowing activities and certain recoverable costs previously presented net of associated revenues have been reclassified to Brokerage, commission and trading-related expenses.
- Employment expenses mainly reflect higher performance-related expenses, increased average headcount to support business growth and the impact of business acquisitions.
- Other mainly includes the impact of increased business activity (such as professional fees, travel and brokerage and commission expense), higher technology spend, indirect tax expenses and other one-off and legacy lending transaction-related expenses.
**Income statement by operating group**

**KEY DRIVERS**

- **MAM**: Increased base and performance fees along with reduced impairments, offset by higher operating expenses and lower investment-related income
- **CAF**: Prior year included higher Asset Finance investment-related income and reduced credit and other impairment charges
- **BFS**: Strong volume growth in Lending, Deposits and Platforms, partially offset by higher operating and technology expenses
- **CGM**: Strong performance in commodities, fixed income & currencies and futures, partially offset by lower equity trading income and higher operating expenses
- **MacCap**: Strong investment-related income and fee and commission income, partially offset by higher net credit and other impairment charges and increased expenditure on green energy and other projects in the development phase
- **Corporate**: includes higher performance-related expenses driven by the improved overall performance of the Operating Groups and other corporate expenses
Macquarie Asset Management

Increased base fees, offset by higher operating expenses and lower combined performance fees and investment-related income

**KEY DRIVERS**

- **Base fees up due to:**
  - Investments made by MIRA-managed funds, favourable foreign exchange movements, and contributions from businesses acquired during the year (GLL and ValuelInvest)
  - Partially offset by asset realisations in MIRA-managed funds
- **Higher performance fees with FY19 benefiting from a broad range of MIRA-managed funds, managed accounts and co-investors across all regions including MEIF1, MEIF3, ALX (formerly MQA), MIP1, GIFII and KMGF**
- **Lower investment-related and other income compared to a strong FY18, which included gains on reclassification of certain investments and higher equity accounted income**
- **Higher operating expenses which were mainly driven by the impact of acquisitions of GLL and ValuelInvest, foreign exchange movements and investment in MIM’s operating platform**
- **Lower credit and other impairment charges as FY18 included the write-down of MIRA’s investment in MIC**

1. Includes net income on equity and debt investments and share of net profits of associates and joint ventures. 2. Includes net income on equity and debt investments, share of net profits of associates and joint ventures and other income.
3. Movement excludes the impact of adopting AASB 15.
MAM AUM movement

Increase of 11% due to FX impacts, contributions from businesses acquired during the current year and market movements

*1. Includes acquisition of GLL Real Estate Partners and the merger of Macquarie Capital’s real estate business into MIRA. MIRA tracks its funds under management using an EUM measure as base management fee income is typically aligned with EUM. EUM and AUM are calculated under different methodologies and as such, EUM movement is the more relevant metric for analysis purposes – refer to MIRA EUM movement on slide 33. MIRA’s total EUM includes market capitalisation at measurement date for listed funds, the sum of original committed capital less capital subsequently returned for unlisted funds and mandates as well as invested capital for managed businesses. AUM is calculated as proportional enterprise value at measurement date including equity value and net debt of the underlying assets of funds and managed assets. AUM excludes uninvested equity in MIRA. Refer MD&A s 7 for further information with respect to EUM and AUM measures.*
MIRA EUM movement

Increase of 36% primarily due to new equity raised, the acquisition of GLL and the merger of Macquarie Capital’s global real estate business.

1. Includes GLL Real Estate Partners and The Infrastructure Fund
2. Macquarie Real Estate Investments – transferred from Macquarie Capital to MAM to merge with MIRA Real Estate
3. Committed capital returned by unlisted funds or under mandates due to asset divestments, redemption or other capital distributions as well as capital no longer managed due to sale of management rights or expiry of asset management agreements.
4. FX reflects the movement in EUM driven by changes in FX rates. EUM is calculated using capital commitments translated at period end FX rates. Spot FX rates are used for capital raised and returned and average FX rates are used for security price movements.
Corporate and Asset Finance

Prior year included reduced credit and other impairment charges and higher Asset Finance investment-related income\(^1\)

**KEY DRIVERS**

- Higher credit and other impairment charges largely reflecting a partial reversal of collective provisions, driven by net loan repayments and the improved credit performance of underlying portfolios in the prior year.

- Asset Finance contribution was down from the prior year driven by lower one-off investment-related income and legacy lending transaction-related expenses, partially offset by increased underlying income from the Energy, Resources and Technology portfolios and favourable foreign exchange movements.

- Principal Finance and Transportation Finance contribution driven by higher investment-related income offset by decreased interest income from the loan portfolio, as well as lower underlying operating lease income.

\(^1\) Investment-related income includes net income on equity and debt investments and share of net profits of associates and joint ventures.
Corporate and Asset Finance

Asset Finance portfolio broadly in line with prior year

1. Primary driver of movement is from a loan held during FY18 and syndicated in April 2018.
Corporate and Asset Finance

Principal Finance movement in the portfolio

Exposure by asset class

1. Acquisition of a 120 rotorcraft portfolio from Waypoint Leasing (Ireland) Ltd.
Introduction Overview of Result Result Analysis and Financial Management Outlook Appendices

Banking and Financial Services
Strong volume growth in Lending, Deposits and Platforms

KEY DRIVERS

- Higher Personal Banking income driven by 15% growth in average mortgage volumes
- Higher Business Banking income driven by a 12% growth in average business banking loan volumes and a 7% growth in average business deposit volumes
- Lower Wealth Management income associated with realigning the wealth advice business to focus on the high net worth segment, partially offset by a 7% increase in average funds on platform
- Bank Levy incurred for 12 months versus 9 months in the prior year (effective 1 July 2017)
- An increase in technology expenses due to higher development activity
- Higher other operating expenses driven largely by increased professional fees, risk and regulatory costs
- Other includes lower vehicle finance income driven by a 4% fall in average vehicles volumes

Banking and Financial Services

Strong growth across the portfolio

Data based on spot volumes at period end. 1. Includes General Plant & Equipment.
Commodities and Global Markets

Results driven by strong performance in commodities

**KEY DRIVERS**

- **Increased net interest and trading income:**
  - Commodities
    - Strong results across the commodities platform from increased client hedging activity particularly in North American Gas and Power, Global Oil and EMEA Gas and Power. Solid contribution from Agriculture, Metals and Mining
    - Increased contribution from commodity lending activities in the Americas and ANZ
    - Significant contribution from the North American Gas and Power business driven by supply-demand imbalances across regional US centres, in addition to an increased contribution from physical and financial oil trading activities in Europe and North America; partially offset by the timing of income recognition, which reduced revenue relating to transport and storage agreements
    - Improved foreign exchange, interest rates and credit result driven by growth in client contributions from foreign exchange structured products across all regions
    - Lower equity trading income reflecting challenging market conditions in specific Asian retail markets
  - Lower equity trading income reflecting challenging market conditions in specific Asian retail markets

- **Increased credit and other impairment charges due to write-downs on underperforming financing facilities and impairment charges related to a small number of specific commodity equity positions**

- **Higher operating expenses driven by higher average headcount which included the full year impact of acquisitions completed in the prior year and the increased investment in technology platforms**

1. Excludes Brokerage, commission and trading-related expenses.
Commodities and Global Markets

Growing client base

Client numbers

- Commodities: 959 (31 Mar 17), 1,010 (31 Mar 18), 1,084 (31 Mar 19)

- Cash Equities (RHS): 1,416 (31 Mar 17), 1,476 (31 Mar 18), 1,462 (31 Mar 19)
**Macquarie Capital**

Result driven by strong investment-related income and fee and commission income, partially offset by higher expenses and credit and other impairment charges

**KEY DRIVERS**

1. Higher investment-related income:
   - Higher revenue from asset realisations in ANZ, Europe and the US, particularly in the technology, green energy and conventional energy sectors
   - Partially offset by higher share of losses of associates and joint ventures reflecting a change in the composition and performance of investments in the portfolio, including increased expenditure on green energy and other projects in the development phase
2. Increased fee and commission income:
   - M&A and other fee income: higher fee income across ANZ, Europe and the US
   - Higher ECM fee income in ANZ
3. Higher net credit and other impairment charges related to a small number of underperforming investments
4. Other primarily reflects higher operating expenses from additional headcount, increased investing activity and foreign exchange movements

---

1. Includes net income on equity and debt investments, share of net losses or profits of associates and joint ventures, net interest and trading expense (which represents the interest earned from debt investments and the funding costs associated with Macquarie Capital’s balance sheet positions), other income and non-controlling interests.
2. Excludes the impact of adopting AASB 15 on fee and commission income and expenses.
3. Includes non-controlling interests.

---

Costs of compliance

- The finance industry continues to see an increase in regulatory initiatives, resulting in increased compliance requirements across all levels of the organisation.
- Total compliance spend (excluding indirect costs) approx. $A496m in FY19, up 14% on FY18.
- Regulatory project spend increased during FY19 as a result of new projects (e.g. ASIC Flex commission, Royal Commission, Brexit) and a number of other technology projects.
- Business as usual spend increased during FY19 from continuing spend on activities such as National Consumer Credit Protection and AML Compliance.

Balance sheet highlights

- Balance sheet remains solid and conservative
  - Term assets covered by term funding, stable deposits and equity
  - Minimal reliance on short-term wholesale funding markets
- Total customer deposits\(^1\) continuing to grow, up 16% to $A56.0b as at Mar 19 from $A48.1b as at Mar 18
- $A13.3b\(^2\) of term funding raised during FY19:
  - $A6.5b of Syndicated loan facilities\(^3\)
  - $A3.0b of term wholesale paper issued
  - $A1.9b of Macquarie Capital Notes issuance
  - $A1.2b of Securitisations
  - $A0.7b refinance of secured trade finance facility

---

1. Total customer deposits as per the funded balance sheet ($A56.0b) differs from total deposits as per the statutory balance sheet ($A56.2b). The funded balance sheet reclassifies certain balances to other funded balance sheet categories.
2. Issuances cover a range of tenors, currencies and product types and are AUD equivalent based on FX rates at the time of issuance and include undrawn facilities.
3. Includes $A0.9b green financing.
Diversified issuance strategy

Term funding as at 31 Mar 19 – diversified by currency\(^1\), tenor\(^2\) and type

- Well diversified issuance and funding sources
- Term funding beyond 1 year (excluding equity and securitisations) has a weighted average maturity of 5.6 years\(^3\)

Note: All data presented in these charts represents drawn facilities. 1. Equity has been allocated to the AUD currency category. 2. Securitisations have been presented on a behavioural basis and represent funding expected to mature in >1yr. 3. Macquarie Income Securities of $A0.4b are excluded as they do not have a maturity date. 4. Issuances exclude securitisations. Issuances are converted to AUD at the 31 Mar 19 spot rate. Macquarie Air Finance Term Loan is included in FY18 in line with the signing of commitment letters. 5. Maturities excludes securitisations. Maturities shown are as at 31 Mar 19.
Continued customer deposit growth

Macquarie has been successful in pursuing its strategy of diversifying its funding sources by growing its deposit base

- Of more than 1.5 million BFS clients, circa 620,000 are depositors
- Focus on the quality and composition of the deposit base
- Continue to grow deposits, CMA product has an average account balance of circa $A41,000

Note: Total customer deposits include total BFS deposits of $A53.4b and $A2.6b of Corporate/Wholesale deposits.

---

1. Loan assets are reported on a funded balance sheet basis and therefore exclude certain items such as assets that are funded by third parties with no recourse to Macquarie. In addition, loan assets amortised cost per the statutory balance sheet of \$A78.5b at 31 Mar 19 (\$A73.5b at 31 Mar 18) are adjusted to include fundable assets not classified as loans on a statutory basis (e.g., assets subject to operating leases which are recorded in Property, Plant and Equipment in the statutory balance sheet). 2. Asset Finance per the funded balance sheet of \$A7.9b differs from the figure disclosed on slide 17 of \$A8.0b and Retail mortgages per the funded balance sheet of \$A35.6b differs from the figure disclosed on slide 18 of \$A38.5b. The funded balance sheet nets down loans and funding liabilities of non-recourse securitisation and warehouse vehicles (PUMA RMBS and SMART auto ABS) to show the net funding requirement. 3. Principal Finance Loans per the funded balance sheet of \$A3.7b includes property and related assets and differs from the figure disclosed on slide 17 of \$A4.1b. 4. Total loan assets per funded balance sheet includes self-securitised assets.

**Footnotes:**

1. Equity investments per the statutory balance sheet of $A6.1b (Mar 18: $A8.5b) have been adjusted to reflect the total economic exposure to Macquarie. 2. Total funded equity investments of $A5.9b (Mar 18: $A6.8b).
Regulatory update

Regulatory capital

- APRA is currently undertaking regulatory reviews in a number of areas, including:
  - Finalisation of Basel III - APRA is yet to release final standards for Australian banks to ensure that their capital levels can be considered ‘unquestionably strong’
  - In Apr 18, APRA released final standards for a standardised approach for measuring counterparty credit risk exposures (SA-CCR), with changes effective 1 Jul 19
  - In Jul 18, APRA released a discussion paper proposing changes to the related entities framework (APS 222), with implementation from 1 Jan 20, plus any transition granted by APRA
  - In Aug 18, APRA released a discussion paper setting out potential options to improve the transparency, international comparability and flexibility of the capital framework. The proposals are not intended to change the amount of capital that ADIs are required to hold
  - In Nov 18, APRA released draft prudential standards on its implementation of a minimum requirement for the leverage ratio of 3.5% expected to be effective from Jan 22. MBL’s leverage ratio is 5.3% at Mar 19
  - Loss-absorbing capacity (LAC) - APRA released a discussion paper in Nov 18 outlining its approach for LAC to support the orderly resolution of Australian ADIs
    - MBL expects to be subject to additional LAC requirements, in line with the major banks, with the final quantum of LAC to be determined by APRA as part of the resolution planning process
    - APRA intends to consult on a framework for recovery and resolution in 2019, which will include further details on resolution planning
  - In Jan 19 the Basel Committee on Banking Supervision (BCBS) released revisions to the market risk framework, with implementation from 1 Jan 2022. APRA is yet to release guidance on implementation in Australia

- Based on the current information available, it is Macquarie’s expectation that it will have sufficient capital to accommodate likely additional regulatory Tier 1 capital requirements as a result of the above changes, noting that some of them are at an early stage of review and hence the final impact is uncertain

- The Banking Executive Accountability Regime (BEAR) will apply to Macquarie from 1 July 2019. To ensure full compliance by this date, the vesting period of PSUs awarded from FY2020 will be extended to four years, subject to performance hurdles.
Regulatory update

- **Macquarie Equities Limited - Fee for no service review and remediation program**
  - Macquarie Equities Limited has completed its assessment of client files under its Fee for No Service Review. Macquarie expects to refund $3m, plus interest, in fees to clients. The outcomes of this review are subject to final assessment by the independent expert and the Australian Securities and Investments Commission.

- **Brexit**
  - As previously stated, Macquarie does not believe that the UK’s withdrawal from the European Union (EU) will be a material event for the Group
  - Progress on licence applications to supplement existing EU licences is well advanced with three of the four targeted new licences now in place.
  - Macquarie is subject to an application process that may cause the credit institution licence in Ireland to be issued early in the second half of the calendar year 2019. Contingency arrangements are in place for a small number of clients who could be affected if the UK leaves the EU without a withdrawal or transition agreement before this licence is secured
  - Macquarie has a longstanding and deep commitment to the UK as the hub for the EMEA region’s operations and this will continue to be the case. Macquarie has been in the UK for 30 years with over 1,900 staff based there as at 31 March 2019

- **Germany**
  - Macquarie continues to cooperate with German authorities in relation to an historical German lending transaction in 2011. No current staff members have been interviewed to date. The total amount at issue is not material and MGL has provided for the matter.
  - As previously stated, Macquarie resolved two dividend trading matters that took place between 2006 and 2009. The industry-wide investigation relating to dividend trading continues and Macquarie continues to respond to requests for information about its activities in this market. Macquarie’s profits from these activities were not material.
Adoption of new accounting standards

• AASB 9 *Financial Instruments* adopted on 1 April 2018
  – Comparative financial statements have, as permitted by AASB 9, not been restated
  – The adoption of AASB 9 resulted in the following principle changes:
    – Change from an incurred credit loss model to a forward-looking expected credit loss model
    – Changes in the classification and measurement of certain financial assets and liabilities
    – Changes in the presentation of financial assets and liabilities in the statement of financial position
  – Transition adjustment following adoption of AASB 9 - gains/(losses):

<table>
<thead>
<tr>

<td>(133)</td>
<td>50</td>
<td>(128)</td>
</tr>
</tbody>
</table>

• AASB 15 *Revenue from Contracts with Customers* adopted on 1 April 2018
  – Comparative financial statements have, as permitted by AASB 15, not been restated
  – No transition adjustment to retained earnings or shareholders’ equity reported following the adoption of AASB 15
  – $A262m of fee expense relating to stock borrowing activities and certain recoverable costs previously presented net of associated revenues have been reclassified to Brokerage, commission and trading-related expenses

1. Comparative financial statements have been re-presented to align with the current period. 2. Difference relates to expected credit loss impairments that are, in terms of AASB 9, recognised in other comprehensive income on certain financial assets.
Bank Group Basel III
Common Equity Tier 1 (CET1) Ratio

1. Committed Liquid Facility. 2. Unencumbered Liquid Asset Portfolio is based on quarterly average balances.
Capital management update

- Impact of changes to CAF business structure
  - As previously foreshadowed, the transfer of the CAF Principal Finance and CAF Transportation businesses from the Bank Group to the Non-Bank Group occurred on 10 December 2018 following a meeting of MBL shareholders (which included holders of Macquarie Income Securities) which approved the transaction
  - In connection with the transfer, MBL returned $A2.04 billion of capital to MGL. Additionally, the transfer resulted in a post-tax increase in ordinary equity for MBL of approximately $A0.3 billion which was paid as a dividend to MGL¹

- Macquarie Group Employee Retained Equity Plan (MEREP)
  - The Board has resolved:
    - To purchase shares²³ to satisfy the MEREP requirements of approx. $A590 million. The buying period for the MEREP will commence on 13 May 19 and is expected to be completed by 28 Jun 19⁴
    - MQG shares sold by staff between 13 May 19 and 7 Jun 19⁵ are expected to be acquired by the MEREP Trustee to meet the MEREP buying requirements
    - Shares sold by staff during this window are to be acquired off-market at the daily Volume Weighted Average Price (VWAP)⁶, reducing the number of shares acquired on-market to meet the MEREP requirements
    - FY18 MEREP requirements of $A454 million were purchased – $A361 million off-market under the staff sale arrangements and $A93 million on-market, with a combined VWAP of $A113.76

- Dividend Reinvestment Plan (DRP)
  - Shares for the 2H18 and 1H19 DRP were acquired on-market
  - The Board has resolved that no discount will apply for the 2H19 DRP and the shares are to be acquired on-market³

- Hybrids
  - On 7 Jun 18, Macquarie announced that it had issued 10,000,000 Macquarie Group Capital Notes 3 (MCN3) at an issue price of $A100 each, raising $A1 billion. The MCN3 offer facilitated the redemption of $A600 million Macquarie Group Capital Notes (MCN)
  - On 27 Mar 19, Macquarie announced that it had issued 9,054,910 Macquarie Group Capital Notes 4 (MCN4) at an issue price of $A100 each, raising $A905.5 million

¹ Via the intermediate holding company, Macquarie B.H. Pty Ltd. ² Shares may be purchased on-market and off-market. ³ Shares will be issued if purchasing becomes impractical or inadvisable. ⁴ Actual buying may be completed sooner or later. On-market buying for the MEREP will be suspended during the DRP pricing period (21 May 19 to 27 May 19). ⁵ This date is subject to change. ⁶ Trades will be crossed off-market by Macquarie Securities (Australia) Limited and reported to ASX and Chi-X accordingly.
Outlook

Shemara Wikramanayake
Managing Director and
Chief Executive Officer
Factors impacting short-term outlook

Annuity-style businesses

Macquarie Asset Management (MAM)
Base fees expected to be broadly in line benefiting from the deployment of capital and full-year effect of platform acquisitions, offset by divestments and internalisation of ALX
Performance fees and investment-related income (net of impairments) expected to be broadly in line

Corporate and Asset Finance (CAF)
Asset Finance portfolio broadly in line
Principal Finance expected to be down due to reduced loan volumes and timing of realisations

Banking and Financial Services (BFS)
Higher deposit, loan portfolio and platform volumes
Competitive dynamics to drive margin pressure

Markets-facing businesses

Commodities and Global Markets (CGM)
Strong customer base expected to drive consistent flow across Commodities, Fixed Income, Foreign Exchange and Futures
Equities expected to remain challenging
Reduced impact from impairments
Business benefited from strong market conditions in FY19, which are unlikely to continue in FY20

Macquarie Capital (MacCap)
Assume market conditions broadly consistent with FY19
With capital usage broadly constant in FY19, expect solid pipeline of investment realisations however investment-related income expected to be down given material transactions in FY19

Corporate
Compensation ratio to be consistent with historical levels
Based on present mix of income, the FY20 effective tax rate is expected to be broadly in line with FY19

Note: Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax. Pie chart is based on FY19 net profit contribution from Operating Groups.
Short-term outlook

- The Group’s result for FY20 is currently expected to be slightly down on FY19
- Our short term outlook remains subject to:
  - The completion rate of transactions
  - Market conditions
  - The impact of foreign exchange
  - Potential regulatory changes and tax uncertainties
  - Geographic composition of income
Medium-term

- Macquarie remains well positioned to deliver superior performance in the medium-term
- Deep expertise in major markets
- Build on our strength in diversity and continue to adapt our portfolio mix to changing market conditions
  - Annuity-style income is provided by three Operating Groups’ businesses which are delivering superior returns following years of investment and acquisitions
    - Macquarie Asset Management, Corporate and Asset Finance and Banking and Financial Services
  - Two markets-facing businesses well positioned to benefit from improvements in market conditions with strong platforms and franchise positions
    - Commodities and Global Markets and Macquarie Capital
- Ongoing program to identify cost saving initiatives and efficiency
- Strong and conservative balance sheet
  - Well matched funding profile with minimal reliance on short-term wholesale funding
  - Surplus funding and capital available to support growth
- Proven risk management framework and culture

</tbody>
</table>

Note: Differences in totals due to rounding. 1. Business Group capital allocations are based on 31 Dec 18 allocations adjusted for material movements over the Mar 19 quarter. 2. NPAT used in the calculation of approx. FY19 ROE is based on Operating Groups' net profit contribution adjusted for indicative allocations of profit share, tax and other corporate expenses. Accounting equity is attributed to businesses based on regulatory capital requirements which are based on the quarterly average capital usage from FY18 to FY19, inclusive. 13-year average covers FY07 to FY19, inclusive. 3. CAF returns prior to FY11 excluded from 13-year average as not meaningful given the significant increase in scale of CAF's platform over this period. 4. Comprising of $A17.8b of ordinary equity and $A4.0b of hybrids.
Medium-term

Annuity-style businesses

Macquarie Asset Management (MAM)

Leading platform, well placed to grow assets under management through MAM’s diversified product offering, track record and experienced local investment teams

Well positioned for organic growth

Corporate and Asset Finance (CAF)

Leverage deep industry expertise to maximise growth potential in asset and loan portfolios

Positioned for further asset acquisitions and realisations, subject to market conditions

Tailored finance solutions globally across a variety of industries and asset classes

Banking and Financial Services (BFS)

Strong growth opportunities through intermediary and direct retail client distribution, platforms and client service

Opportunities to increase financial services engagement with existing business banking clients and extend into adjacent segments

Modernising technology to improve client experience and support growth

Markets-facing businesses

Commodities and Global Markets (CGM)

Opportunities to grow commodities business, both organically and through acquisition

Development of institutional and corporate coverage for specialised credit, rates and foreign exchange products

Increase financing activities

Growing the client base across all regions

Leveraging a strong market position in Asia-Pacific through investment in the equities platform

Macquarie Capital (MacCap)

Positioned to benefit from any improvement in M&A and capital markets activity

Continues to tailor the business offering to current opportunities, market conditions and strengths in each sector and region

1. Investment-related income includes net income on equity and debt investments and share of net profits of associates and joint ventures. Other income includes other fee and commission income, net interest and trading expense, other income and internal management revenue. 2. The change in expected credit losses relating to financial assets under AASB 9 is recorded under Credit impairment charges. Individual and collective provisions for the prior year remain in accordance with AASB 139 and have not been restated. 3. Management accounting profit before unallocated corporate costs, profit share and income tax. 4. Prior year has been restated for MSIS, which was transferred to CAF on 1 December 2018.

- **Base fees of $A1,738m, up on FY18**
  - Increased fees from investments made by MIRA-managed funds, favourable foreign exchange movements, and contributions from businesses acquired during the year (GLL and ValueInvest)
  - Partially offset by asset realisations in MIRA-managed funds

- **Performance fees of $A765m, up on FY18**
  - FY19 included performance fees from a broad range of MIRA-managed funds, managed accounts and co-investors across all regions including MEIF1 and MEIF3, ALX (formerly MQA), MIP1, GIFII and KMGF
  - FY18 included performance fees from MEIF3, ALX and other MIRA-managed funds, managed accounts and listed equities

- **Investment-related and other income of $A427m, down compared to a strong FY18**
  - FY19 included income from the sale and revaluation of a number of underlying assets within equity accounted investments
  - FY18 benefited from gains on reclassification of certain investments

- **Credit and other impairment charges of $A86m, were lower as FY18 included the write-down of MIRA’s investment in MIC**

- **Total operating expenses of $A1,339m, up 33% on FY18 mainly driven by the impact of AASB 15 offset in income, acquisitions of GLL and ValueInvest, foreign exchange movements and investment in MIM’s operating platform**

1. Includes internal net interest expense and transfer pricing on funding provided by Group Treasury that is eliminated on consolidation in the Group’s statutory P&L. 2. The change in expected credit losses relating to financial assets under AASB 9 is recorded under Credit impairment charges. Individual and collective provisions for the prior year remain in accordance with AASB 139 and have not been restated. 3. Other income includes net income on equity and debt investments, share of net profits of associates and joint ventures, gain on disposal of operating lease assets, internal management revenue and other income. 4. Management accounting profit before unallocated corporate costs, profit share and income tax. 5. Includes equity portfolio of $A0.7b (FY 18: $A0.4b).

- Net interest and trading income of $A36m, down 88% on FY18 mainly as a result of lower interest income from the Principal Finance loan portfolio
- Net operating lease income of $A947m, up 2% on FY18 driven by increased income from the Energy and Technology portfolios and favourable foreign exchange movements, partially offset by a reduction in underlying Aviation income
- Credit and other impairment charges of $A26m, up on FY18 which included a partial reversal of collective provisions, driven by net loan repayments and the improved credit performance of underlying portfolios
- Fee and commission income of $A97m, up 21% on FY18 largely driven by growth in the Technology portfolio
- Other income of $A577m, up 33% on FY18 driven by investment realisations in Principal Finance, including Energetics, and asset sales in Technology, Resources and Transportation. FY18 included a gain on reclassification of an asset held in the Principal Finance business, income from the sale of Principal Finance assets in the US, gain from the sale of US commercial vehicles financing business and income from the sell-down of infrastructure debt
- Total operating expenses of $A600m, down 4% on FY18 driven by the sale of Energetics in the current year and US commercial vehicles financing business in the prior year

¹ Includes internal net interest expense and transfer pricing on funding provided by Group Treasury and deposit premium paid to BFS by Group Treasury for the generation of deposits, that are eliminated on consolidation in the Group’s statutory P&L. ² The change in expected credit losses relating to financial assets under AASB 9 is recorded under Credit impairment charges. Individual and collective provisions for the prior year remain in accordance with AASB 139 and have not been restated. ³ Includes share of net profits/(losses) of associates and joint ventures, internal management (charge)/revenue and other income. ⁴ Management accounting profit before unallocated corporate costs, profit share and income tax. ⁵ Funds on platform includes Macquarie Wrap and Vision. ⁶ The Australian loan and lease portfolio comprises residential mortgages, loans to Australian businesses, vehicle finance, insurance premium funding and credit cards. ⁷ Total BFS deposits excludes corporate/wholesale deposits.

- Net interest and trading income of $A1,678m, up 6% on FY18
  - 7% growth in the average BFS deposit balance and a 9% growth in average Australian loan and lease portfolio volumes
  - Additional $A10m allocation of the Australian Government Major Bank Levy incurred for 12 months versus 9 months in the prior year (effective 1 July 2017)
- Fee and commission income of $A476m, down 3% on FY18 driven by lower wealth management fee income associated with realigning the wealth advice business to focus on the high net worth segment
- Credit and other impairment charges of $A82m, up 9% on FY18 driven by higher impairments taken on equity investments
- Other income of $A31m, up 24% on FY18 due to equity investment dividends and revaluations
- Total operating expenses of $A1,347m, up 4% on FY18 driven by an increase in Technology expenses due to higher development activity, as well as higher professional fees and increased risk and regulatory costs

1. Includes internal net interest expense and transfer pricing on funding provided by Group Treasury that is eliminated on consolidation in the Group’s statutory P&L. 2. Includes net income on equity and debt investments, share of net profits of associates and joint ventures, internal management (charge)/revenue and other income. 3. The change in expected credit losses relating to financial assets under AASB 9 is recorded under Credit impairment charges. Individual and collective provisions for the prior year remain in accordance with AASB 139 and have not been restated. 4. Management accounting profit before unallocated corporate costs, profit share and income tax.

- Commodities income of $A1,983m, significantly up on FY18
  - Risk management products up 53% on FY18 reflecting strong results across the commodities platform particularly in North American Gas and Power, Global Oil, and EMEA Gas and Power from increased client hedging activity as result of volatility and commodity price movements. Solid contribution from Agriculture, Metals and Mining
  - Lending and financing up 5% on FY18 primarily due to increased commodity lending activities in the Americas and ANZ
  - Inventory management and trading up significantly on FY18 primarily in North American Gas and Power driven by supply-demand imbalances across regional US centres in addition to an increased contribution from physical and financial oil trading activities in Europe and North America. This was partially offset by the timing of income recognition, which reduced revenue relating to transport and storage agreements

- Foreign exchange, interest rates and credit income of $A564m, up 11% on a strong FY18 driven by growth in client contributions from foreign exchange structured products across all regions

- Equities trading income down 33% on FY18 reflecting challenging conditions, particularly in Asia due to reduced demand for retail products in specific markets

- Fee and commission income of $A1,160m, up 30% on FY18
  - Includes a $A143m reclassification relating to stock borrowing expenses following the adoption of AASB 15, which were previously presented net of associated revenues
  - Increase in brokerage commission from increased client activity in the Asia-Pacific Cash equities and the American Futures businesses

- Fee and commission income of $A1,160m, up 30% on FY18
  - Includes a $A143m reclassification relating to stock borrowing expenses following the adoption of AASB 15, which were previously presented net of associated revenues
  - Increase in brokerage commission from increased client activity in the Asia-Pacific Cash equities and the American Futures businesses

- Investment and other income of $A85m, down 40% on FY18, reflecting a reduced contribution from gains on sale of a number of investments in the commodities sector

- Credit and other impairment charges of $A151m, up 72% on FY18 due to increased write-downs on underperforming financing facilities and impairment charges related to a small number of specific commodity equity positions

- Total operating expenses of $A2,378m, up 19% on FY18, driven by higher average headcount which included the full year impact of acquisitions completed in the prior year, higher client activity, increased investment in technology platforms and the $A143m reclassification following the adoption of AASB 15

¹ Includes net income on equity and debt investments, share of net losses or profits of associates and joint ventures and other income.
² Includes internal net interest expense and transfer pricing on funding provided by Group Treasury that is eliminated on consolidation in the Group’s statutory P&L.
³ The change in expected credit losses relating to financial assets under AASB 9 is recorded under Credit impairment charges. Individual and collective provisions for the prior year remain in accordance with AASB 139 and have not been restated.
⁴ Internal revenue allocations are eliminated on consolidation in the Group’s statutory P&L.
⁵ Management accounting profit before unallocated corporate costs, profit share and income tax.
⁶ Source: Dealogic and UGlobal for Macquarie Group completed M&A, balance sheet positions, ECM and DCM transactions converted as at the relevant reporting date. Deal values reflect the full transaction value and not an attributed value.

• Increased fee and commission income:
  - M&A and other fee income: higher fee income across ANZ, Europe and the US
  - Higher ECM fee income in ANZ
  - Includes the impacts of adopting AASB 15 and foreign exchange movements

• Higher investment-related income (excluding non-controlling interests):
  - Higher revenue from asset realisations in ANZ, Europe and the US, particularly in the technology, green energy and conventional energy sectors
  - Partially offset by higher share of losses of associates and joint ventures reflecting a change in the composition and performance of investments in the portfolio including increased expenditure on green energy and other projects in the development phase

• Higher net credit and other impairment charges related to a small number of underperforming investments

• Higher operating expenses reflects additional headcount, increased investing activity, the impact of adopting AASB 15 and foreign exchange movements
Appendix

Additional information - Funding
Macquarie funding structure

- MGL and MBL are Macquarie’s two primary external funding vehicles which have separate and distinct funding, capital and liquidity management arrangements
- MBL provides funding to the Bank Group
- MGL provides funding predominately to the Non-Bank Group

The Bank Group comprises BFS and some activities of CAF and CGM. The Non-Bank Group comprises MacCap, MAM and some business activities of CAF and CGM.
Funded balance sheet reconciliation

- Macquarie’s statement of financial position is prepared based on generally accepted accounting principles which do not represent actual funding requirements
- A funded balance sheet reconciliation has been prepared to reconcile the reported assets of Macquarie to the assets that require funding

- Non-Bank Group is predominantly term funded
- Term funding beyond one year (excluding equity) has a weighted average term to maturity of 6.2 years²
- Accessed term funding across a variety of products and jurisdictions

¹ Hybrid instruments include Macquarie Capital Notes 2, 3 & 4. ² As at 31 Mar 19. ³ Includes drawn term funding facilities only.
Explanation of Funded Balance Sheet reconciling items

- **Self-funded trading assets**: Macquarie enters into stock borrowing and lending as well as repurchase agreements and reverse repurchase agreements in the normal course of trading activity that it conducts with its clients and counterparties. Also as part of its trading activities, Macquarie pays and receives margin collateral on its outstanding derivative positions. These trading-related asset and liability positions are presented gross on the statement of financial position but are viewed as being self-funded to the extent that they offset one another and, therefore, are netted as part of this adjustment.

- **Derivative revaluation accounting gross-ups**: Macquarie’s derivative activities are mostly client driven with client positions hedged by offsetting positions with a variety of counterparties. The derivatives are largely matched and this adjustment reflects that the matched positions do not require funding.

- **Segregated funds**: These represent the assets and liabilities that are recognised where Macquarie provides products such as investment-linked policy contracts or where Macquarie holds segregated client monies. The policy (contract) liability and client monies will be matched by assets held to the same amount and hence do not require funding.

- **Outstanding trade settlement balances**: At any particular time Macquarie will have outstanding trades to be settled as part of its brokering business and trading activities. These amounts (payables) can be offset in terms of funding by amounts that Macquarie is owed on other trades (receivables).

- **Short-term working capital assets**: As with the outstanding trade settlement balances above, Macquarie through its day-to-day operations generates working capital assets (e.g. receivables and prepayments) and working capital liabilities (e.g. creditors and accruals) that produce a ‘net balance’ that either requires or provides funding.

- **Non-controlling interests**: These represent the portion of equity ownership in subsidiaries not attributable to Macquarie. As this is not a position that Macquarie is required to fund it is netted against the consolidated assets and liabilities in preparing the funded balance sheet.

- **Securitised assets and other non-recourse funding**: These represent assets that are funded by third parties with no recourse to Macquarie including lending assets (mortgages and leasing) sold down into external securitisation entities.
Conservative long standing liquidity risk management framework

Liquidity Policy

• The key requirement of MGL and MBL’s liquidity policy is that the entities are able to meet all liquidity obligations during a period of liquidity stress:
  – A 12 month period with constrained access to funding markets for MBL, no access to funding markets for MGL and with only a limited reduction in franchise businesses
• Term assets are funded by term funding, stable deposits, hybrids and equity

Liquidity Framework

• A robust liquidity risk management framework is designed to ensure that both MGL and MBL are able to meet their funding requirements as they fall due under a range of market conditions. Key tools include:
  – Liability driven approach to balance sheet management
  – Scenario analysis
  – Maintenance of unencumbered liquid asset holdings
• Liquidity management is performed centrally by Group Treasury, with oversight from the Asset and Liability Committee and the Risk Management Group
• The MGL and MBL Boards approve the liquidity policy and are provided with liquidity reporting on a regular basis

- Off balance sheet: 17,616

**Credit risk total**

- Credit risk: 61,689
- Market risk: 5,382
- Operational risk: 10,111
- Interest rate risk in the banking book: -
- Tier 1 deductions: -

**Contribution to Group capital calculation**

- Contribution: 77,182
- Tier 1 deductions: 2,035
- Capital requirement: 8,595

---

1. Calculated at 8.5% RWA including capital conservation buffer (CCB), per APRA ADI Prudential Standard 110.
2. Based on materiality, the 8.5% used to calculate the Group capital surplus does not include the countercyclical capital buffer (CCyB) of −10bps. The individual CCyB varies by jurisdiction and the Bank Group’s CCyB is calculated as a weighted average based on exposures in different jurisdictions.
3. In calculating the Bank Group’s contribution to Macquarie’s capital requirement, $A335m of RWAs associated with exposures to the Non-Bank Group are eliminated.
Macquarie regulatory capital

Non-Bank Group contribution

- APRA has specified a regulatory capital framework for Macquarie
- A dollar capital surplus is produced; no capital ratio calculation is specified
- APRA has approved Macquarie’s Economic Capital Adequacy Model (ECAM) for use in calculating the regulatory capital requirement of the Non-Bank Group
- The ECAM is based on similar principles and models as the Basel III regulatory capital framework for Banks, with both calculating capital at a one year 99.9% confidence level:

<table>
<thead>
<tr>
<th>Risk</th>
<th>Basel III</th>
<th>ECAM</th>
